Vision Statement for Rosedale Elementary School

We believe all students deserve:

to attend school in a learning rich environment surrounded by caring and supportive adults. This is an environment that is conducive to learning, where there are high expectations for success and opportunities to learn with a curriculum that is challenging, incorporates real-life experiences, and uses a wide range of resources. Students deserve to feel safe at school, have a comfort level that allows them to take risks without the fear of failure, be respected for who they are, appreciated for how they learn, and evaluated on their own merit.

All adults in our community are living by these core convictions daily and as a result, show the following attitudes and actions:

are active in the educational process by participating in school leadership and functions. Parents support their children by making sure that homework is a priority, by assuring that their children are at school daily and that their basic needs (sleep, food, clothing, health) are met. The adults take the responsibility of being a role model seriously and engage in behavior that warrants being modeled. All

adults in the community show that they value education by talking positively about the school, providing resources, and volunteering. When working with children, the adults hold high expectations regarding academic performance and behavior. All adults feel comfortable at school and are willing to voice praise, as well as concerns.

In this environment where all adults are living by their core convictions, all students: respect self, others, and property. They demonstrate good citizenship by using life skills and taking responsibility for their own actions. They strive for excellence in every job and understand the value of hard work. They are self-motivated, energetic, and willing to take on challenges. Students come to school prepared to learn. They are well rested, clean, and have healthy diets. Students perform at grade level or higher in all academic areas. They attend school daily, behave appropriately, and are highly engaged in learning.

PTO (PARENT TEACHER ORGANIZATION)

The PTO is not so much an organization for parents & teachers, as it is an organization to promote the quality & variety of education for students. Due to ever increasing budget restrictions in the education field, school corporations no longer have the available funds for many extras that students were able to enjoy a few years ago. Therefore, the PTO has an ever-increasing value.

As parents, teachers, and friends of students at Rosedale Elementary School, we hope that you will help to make this year's effort a successful one. We stress everyone's involvement in the organization in order to provide the diversity and the quality of education we desire in this community. Membership is open to students, parents, school staff, relatives, and any interested citizens of the Southwest Parke School Corporation.

We truly appreciate your involvement and hope to see you at each meeting. Check the school website, newsletters, and the flyers that come home with the students for the meetings' schedule.

Any organization wishing to use a school facility shall make written application to the principal or principal's designee of the buildings, grounds, or equipment to be used. Applications will be approved or disapproved according to their merit and appropriate fees assigned according to a Board approved schedule. The Lessee or others using the facilities assumes all risk and responsibility for accident, injury, or damage to person and property arising from Lessee's use and control of the facility. Please do not hurt another child's feelings by excluding him/her.

Animals are not to be brought to school unless arrangements have been made with the classroom teacher and principal in advance. Parents will need to transport animals to and from school and not use the school bus.

STUDY TRIPS

Must have Criminal History Checks completed (**10 days prior to an event**) & approved annually to chaperone.

Study trips are designed to reinforce and expand curriculum taught in the classroom. Therefore, students are expected to participate in all study trips. To participate in a study trip, a child must return a consent slip signed by the parent or legal guardian before the trip. If a child fails to return the

signed consent slip, he/she will not be allowed to go on the study trip. He/she will be given class work and will be assigned to another classroom for the duration of the trip. Some trips require a fee. Any time you send money to school for study trips, please place it in an envelope with the child's name, teacher's name, and the purpose for which money is being sent.

SUPPLIES

Students are to have all supplies required for their grade level at all times. It is their responsibility to notify parents when they need to replace supplies. Also, we request that students do not bring to school trapper keepers or any bag larger than a book bag. We do not have space to store these items.

Parents are encouraged to be involved in their children's education. Parents who would like to plan a classroom visitation at some time during the school year, are to call the school at least one day in advance of any visitation to schedule a time with the teacher. The school reserves the right to limit visitations to the classrooms. Too many visitations can be disruptive and cause students to lose valuable class time. Parents are also welcome to eat lunch with their children. Parents will pay the adult price for the school lunch plus additional for milk or juice. Call the school office or the classroom teacher to let them know that you will be eating with your children, at least a day in advance. Guests visiting are required to sign in and out and to obtain a guest badge at the office.

VISITORS

In order to provide a safe and secure environment for our students, we expect all persons entering the building to report directly to the main office to sign in, to sign students in or out, and to get a pass/guest badge. **You will need a current driver license or State ID to check in.**

ELEMENTARY ATTENDANCE POLICY

COMPULSORY SCHOOL ATTENDANCE, I.C. 20-3-2

This law states that the legislative intent . . . is to provide an efficient and speedy means of insuring that children receive a proper education whenever it is reasonably possible. It also states that it is the responsibility of the parent or guardian to ensure that children are in school each day that school is legally in session. It is unlawful for a parent to fail, neglect, or refuse to send his child to a public school for the full term as required under this chapter unless the child is being provided with instruction equivalent to that given in the public schools.

ELEMENTARY ATTENDANCE POLICY

Students should attend school as regularly as possible to receive the maximum benefit from his/her educational experience. Absence from school is a major cause for poor performance and/or failure. With increased expectations for educational accountability, students cannot afford to miss school. When a student is absent, the parent is to call the school prior to 8:30 a.m. or you may leave a voicemail in the Attendance Mailbox. The parent is also to send a note or verification note to the child's teacher when he/she returns to school. This note provides written documentation for the absence.

TYPES OF ABSENCES:

1. **CERTIFIED:** (These absences are not counted in the 7 days of excessive absences.)
 - Medical with written verification from medical office,
 - Court appearance with written verification from court,
 - Death in the family,
 - Religious activity as outlined by state law,
 - Page at the General Assembly,
 - Indiana State Fair – one day only,
 - Suspensions
 - Childhood illnesses (i.e. chicken pox), surgeries, etc. (Certified by building principal or nurse.)
 - Sent home from school due to illness, head lice, pink eye, etc. (excused the day sent home and the following day).
2. **EXCUSED ABSENCES:** Any absence approved by the building principal, his/her designee, and/or the corporation nurse. These absences are counted in the 7 days of excessive absences unless certified by the principal or nurse. To be certified a contact has to be made by the parent to the principal or nurse to verify the reason for the absence. Generally, family vacations will not be certified.
 - Common illnesses (i.e. cold, flu,) unless certified by doctor, principal, or nurse.
 - Unavoidable family circumstances approved in advance, i.e. family vacation, personal situations, etc.
 - Unavoidable family circumstances that are emergency situations.
3. **UNEXCUSED ABSENCES:** (These absences are counted in the 7 days of excessive absences.)
 - Any absence that is not approved as excused or is certified, i.e., no excusable reason has been given, advance notification not given, no phone call to the office on the day of the absence or note received when the student returns.
 - Truancy (willfully absent from school).

PENALTY FOR VIOLATION OF ATTENDANCE POLICY

CERTIFIED ABSENCES are not counted in the 7 days of excessive absences.

EXCESSIVE ABSENCES: 7 days of excused and/or unexcused absences per semester.

1. A letter may be sent to parents after 5 combined excused and/or unexcused absences.
2. A letter may be sent to parents after 7 combined excused and/or unexcused absences with copies and appropriate documentation sent to the Parke County Prosecutor and Parke County Division of Family and Children Services.
3. Continued abuse of the attendance policy will likely result in:
The building principal will file Due Process procedures for expulsion.
Filing of educational neglect will be pursued.
4. Continued abuse of the attendance policy may also result in retention.

APPEAL: Contact the Building Principal.

MAKE-UP PRIVILEGES

- A. The initiative for seeking make-up work missed while absent MUST originate with the student within two days of return to school. Students may have two days for every day he/she is absent to complete the make-up assignments.
- B. Absences due to suspensions and unexcused absences MAY have make-up privileges.

ELEMENTARY TARDY POLICY

Tardy is defined as arrival at school after 8:10am, but before 9:30am. Arrivals after 9:30am will be counted as one-half day absent.

Students need to arrive prior to the beginning of the school day, which is 8:10am.

The importance of punctuality is stressed, as students arriving late interferes with the educational process. When a child must be late to school or leave early, parents should notify the office, by note or phone call, explaining the cause for the tardy. Upon entering school late or leaving early, parents/guardians should sign their child in or out at the office. Students late to school will be issued a pass to give to their classroom teacher.

When a student accumulates 3 tardies - Notice is sent home with the student to inform parent/guardian of the number of accumulated tardies and potential consequences of additional tardies.

When a student accumulates 5 tardies - Notice is sent with the student to inform parent/guardian of the number of tardies and student is assigned to a lunch detention in order to make up for lost instructional time.

When a student accumulates 7 tardies - Notice is sent home with the student to inform parent/guardian of the number of tardies and student is assigned to a lunch detention in order to make up for lost instructional time.

If the problem is not resolved, it could be considered educational neglect and the proper authorities will be contacted.

HABITUAL TRUANCY I.C. 20-33-2-11

A student who has withdrawn from school for a reason other than financial hardship will not be issued a driver's permit or license until the age of eighteen. The Indiana State Amendment to the Habitual Truancy Law also requires that during the exit interview a determination must be made by the principal as to whether or not the student is withdrawing due to financial hardship. The parent and student are to receive a copy of the determination and information about whether the student's name will be submitted to the Bureau of Motor Vehicles.

STUDENT PROGRESS

GRADING POLICY

Students are encouraged to work to their individual capability in each of their classes. Students should recognize that no two people are alike, and that they possess varying strengths and weaknesses. Therefore, earned grades in the various classes can and will be different.

Teachers are responsible for assigning individual students' grades. This will be done by applying the teacher's grading system to the students' class achievement. The teacher's classroom grading system will be explained to the students at the beginning of each year. Copies of a teacher's classroom grading system will be made available upon request.

- Students in Kindergarten receive a Progress Report that is developmentally appropriate. Grades one through six students receive "A-F" symbols.
- Handwriting is evaluated with the "O's", "S's", "N's", and "U's" at all grade levels.

GRADING POLICY (Spring, 2004)

The following grading scale is used for grades 1 - 6:

REPORT CARDS

The achievement by each student in each individual class will be reported to the student and parents/guardians on a quarterly (9 weeks) basis as set by the school calendar each year for grades K - 6. The grade report card will be distributed to students to take home the week following the end of each grade period. Parents/guardians are asked to sign and return the bottom portion of the report card form. There will be four nine weeks grades and a final average on the elementary report cards at the end of the school year.

PROGRESS REPORTS

Mid-grade period progress reports will be prepared for each student. Parents/guardians are asked to sign and return the bottom portion of the progress report form. Other contacts will be made by the classroom teacher, if there is a problem in academic progress and/or behavior of child as needed.

SOUTHWEST PARKE POLICY SECTION 3.24: RETENTION POLICY

Southwest Parke Community School Corporation is dedicated to the best total and continuous development of each student enrolled. The professional staff is expected to place students at the grade level best suited to them academically, socially, and emotionally.

Students will normally progress annually from grade to grade. However, some students need additional time and experience before proceeding to the next level of their education.

When this concern exists, the building principal shall determine whether a student should be retained after consultation with the parents, teachers, guidance counselor, and other professional staff.

Decisions regarding retention shall be based on emotional and physical maturity, ability, achievement, and review of supportive evidence, such as samples of student work, test results, progress reports, etc.

Parent concern and input shall be considered in retention decisions, but the final placement of a child shall be determined by the building principal.

PROCEDURE FOR DETERMINING RETENTION

- Classroom teacher recommendation to Evaluation Committee based on classroom performance standardized test scores, and results of Light's Retention Scale.
- Review of recommendation by Evaluation Committee. This committee includes the counselor, present classroom teacher, former classroom teacher, principal, reading teacher, and special education teacher if applicable.
- Parental consultation with teacher and principal.
- Final placement determined by building principal.

Note: As of the 2011-2012 school year, third grade students will be required to take a reading test, IREAD-3. If they do not pass this test, then by Indiana Law, they will be required to repeat grade 3 if they do not have a State granted Good Cause Exemption.

SOUTHWEST PARKE HOMEWORK POLICY

Homework, as defined by the State Department of Education, is an out-of-school assignment that contributes to the educational process of the student. It should be an extension of class work and should be related to the objectives of the curriculum presently studied. Homework may include additional practice exercises, reading of material on a specific subject, in-depth extension of classroom activities, or independent project work related to the subject. But above all, homework gives teachers and students responsibilities which must be met before assignments can be considered as an extension of classroom instruction.

The students, with guidance from teachers and parents, should continue to develop responsibility for bridging the gap of communication between home and school. Homework should provide an opportunity for parents to cooperate with students in the learning process; however, it should not be so complex that parental assistance is required or necessary. Homework should:

- Reinforce the day's lesson, and prepare the student for the following lesson.
- Conform to the objectives stated in the curriculum guide and lesson plans.
- Incorporate a variety of instructional modes allowing for diversity among students.
- Increase motivation, comprehension, and higher level thinking skills.
- Enhance, Enrich, and Reinforce, the concept being taught in the regular classroom.
- Strengthen & Improve self-discipline and concentration.

Homework may additionally fulfill the following purposes:

- To teach students responsibility and organizational skills.
- To promote wise and orderly use of time.

- To encourage a carry-over of worthwhile school activities in permanent career and leisure interests.
- To provide opportunities for broad enrichment activities.
- Practice: to increase speed, mastery, or maintenance of skills.
- Participation: to increase the involvement of each student with the learning task.
- Personal Development: to build student responsibility, honesty, perseverance, time management, and self-confidence.
- Parent-Child Relations: to establish communication between parent and child on the importance of schoolwork & learning.
- Public Relations: to inform parents on what is happening in class.
- Policy: to fulfill directives from policy on prescribed amount of homework per week.

In the early grades, the effectiveness of homework assignments depends largely on the concern each student's parents and teachers show for his/her welfare. As the students mature, however, his/her success with homework becomes progressively more dependent on his/her own efforts. Each student has the responsibility to develop good work and study habits. The students should:

1. Clarify with the teacher any questions pertaining to instructions before leaving class, its purpose, when it is due, and how it should be done.
2. Take home any materials and information needed to complete the assignment.
3. Learn how to budget time. When study time is provided during the day, the student should take advantage of it. Long-term assignments should be planned so they do not have to be done all at once.
4. Analyze his/her study habits and take advantage of available study help. Although research shows that there is no best way to study, all students need effective study skills.
5. Return all work completed to the teacher by the date requested.
6. Make up work missed during an illness or excused absences.
7. With the aid of their parents:
 - a. Set aside a special time to do the assignment.
 - b. Find a special place free from excessive noise and other distractions in which to work.
 - c. Organize his/her time so assignments can be completed in a reasonable length of time.
 - d. Review carefully the completed assignment.

Naturally each teacher's policy may vary, but a blend of the following four elements is essential:

1. The students' efforts need to be recognized and positive and/or instructive comments made about the finished work.
2. The students should be provided opportunities to share with others what they have done.
3. Students should be made aware of the merits and where improvement is needed in their efforts.
4. Some means of appraisal should be established so students can make their own comparative evaluation

The Board supports homework assignments as an extension of class work and it will be related to the objectives of the curriculum and contribute to the educational process. Each teacher will communicate in writing to the parents and students the homework expectations for his/her class or subject area at the appropriate starting times (i.e. semesters, beginning of year).

STUDENT RECOGNITION

HONOR ROLL

An Honor Roll in recognition of those students achieving academic excellence will be published after the close of each grading period and at the end of the school year. Academic, special areas (Art, P.E., Music), and citizenship grades are used to determine the Honor Roll. The following guidelines must be met to achieve this recognition.

- o "Distinguished Honor Roll" - denotes those students in Grades 4, 5, and 6 who earned all "A's" with an "A" in Citizenship.

Statement to Parents Regarding School's Ability to Make Decisions Governing the Child

(Source: Dave Emmert, General Counsel, Indiana School Boards Association)

When the parent chooses to send his or her child to a public school, Indiana's laws and courts recognize that school officials and teachers "take the place of the parent" with regard to decisions pertaining to the child during the time of the school's supervision of the child. This concept is often

referred to as “in loco parentis” and is expressed by the Indiana Legislature in the Education Code pertaining to student discipline as follows:

I.C. 20-33-8-8 Duty and powers of school corporation to supervise and discipline students
Section 8

(a) Student supervision and the desirable behavior of students in carrying out school purposes is the responsibility of:

- (1) a school corporation; and
- (2) the students of a school corporation.

(b) In all matters relating to the discipline and conduct of students, school corporation personnel:

- (1) stand in the relation of parents to the students of the school corporation; and
- (2) have the right to take any disciplinary action necessary to promote student conduct that

conforms with an orderly and effective educational system, subject to this chapter.

(c) Students must:

- (1) follow responsible directions of school personnel in all educational settings; and
- (2) refrain from disruptive behavior that interferes with the educational environment.

DISCIPLINE POLICY

Parents will be provided with a copy of the classroom discipline plan at the beginning of each school year.

It is the goal of Rosedale Elementary School to foster a disciplined student body where appropriate educational opportunities and experiences are enjoyed by individual students. Conscientious faculty members, supported by students, administrators, parents, and community members, are essential to a disciplined school.

Students must develop self-control in order to promote a psychologically safe environment conducive to both academic and social growth. Students do not have the right to interfere with the learning process of others. Those who do may be denied their privileges to participate in educational activities for a specified time.

Discipline should not be confused with punishment. The goal of discipline is a self-controlled individual exhibiting accepted attitudes and standards of conduct.

As stated in our Student Handbooks, State Statute IC 20-8.1-5-1, Major School Violations, specifically identifies behavior that may result in the denial of educational rights to some degree for a student.

Inappropriate behavior in school, at school functions, and on school property can range from impoliteness to flagrant disregard of the rights of others. The consequences that follow inappropriate behavior will involve student-staff counseling and monitoring of subsequent behavior, if self-control is to develop. Consequently, nearly all discipline begins with student-teacher conversation. Then, depending upon the seriousness of the inappropriate behavior and the frequency with which it has occurred, the following additional consequences may take place:

- loss of privileges
- exclusion from classroom/lunchroom/playground
- teacher-parent contact
- before-or after- school detention *
- student-teacher-parent conference
- student-teacher-administrator conversation
- student-teacher-counselor conference
- in-school suspension
- out-of-school suspension
- immediate out-of-school suspension
- student-teacher-parent-administrator conference
- other teacher-parent-administrator recommendations
- Expulsion

If the consequence of before-or-after school detention is chosen, the following applies:

1. School detentions will be served 7:15am - 8:00am. or 2:40pm - 3:30pm.
2. Students will be supervised by an administrator, teacher, instructional assistant, secretary/treasurer or substitute teacher.
3. Parents will be notified at least 1 day prior to the student serving the detention.
4. Parents will be responsible for making transportation arrangements for the students. If the student is to walk home, written notification must be given to the detention supervisor.
5. Students will be required to remain seated, to do schoolwork, and not to talk except to request assistance from the staff supervisor. If these rules are not followed the student will be assigned additional detentions.

6. If a student does not report to the assigned detention, other consequences will follow.
7. Students will not be allowed to participate in extra-curricular activities which occur during assigned detention time.
8. Failure to complete assignments may result in a before or after-school detention.

school. Any student ignoring directions or instructions from a supervisor will be dealt with accordingly. Parents are responsible for their child's behavior. Citizenship grades are determined by the classroom teacher with input from the special class teachers.

ANTI-BULLYING PROCEDURES

In order to create and maintain a safe learning environment, Rosedale students learn and practice skills that develop empathy and kindness so that they may be supportive and inclusive to all their peers. Students are taught to follow the 3 Rs of bullying prevention—Recognize, Report, and Refuse. Students should report bullying incidents (that include themselves or others) to their teachers, the school counselor, principal and/or other school staff members. Students also have access to the “Stop Bullying” link found on their SWP chromebook’s Clever page to report any concerns. Once a report has been communicated by a student and/or parent/guardian, the principal and/or counselor will investigate the situation. School officials will contact parents/guardians of the victim and alleged bully involved regarding bully reports and findings from the investigation.

What is Bullying? "Bullying" (per IC 20-33-8-.2) means overt, unwanted, repeated acts or gestures, including verbal or written communications or images transmitted in any manner (including digitally or electronically), physical acts committed, aggression, or any other behaviors, that are committed by a student or group of students against another student with the intent to harass, ridicule, humiliate, intimidate, or harm the other targeted student and create for the targeted student an objectively hostile school environment that: (1) places the targeted student in reasonable fear of harm to the targeted student's person or property; (2) has a substantially detrimental effect on the targeted student's physical or mental health; (3) has the effect of substantially interfering with the targeted student's academic performance; or (4) has the effect of substantially interfering with the targeted student's ability to participate in or benefit from the services, activities, and privileges provided by the school.

Bullying fosters a climate of fear and disrespect that can seriously impair the physical and psychological health of its victims and create conditions that negatively affect learning. Bullying includes unwanted, aggressive behavior that involves a real or perceived power imbalance. The behavior is repeated, or has the potential to be repeated, over time. The imbalance of power involves the use of physical strength, or popularity to access embarrassing information to control or harm others. Bullying can occur anywhere (in-school or outside of school) and at any time – both during and after school hours. Bullying can include physical bullying, verbal bullying, social/relational bullying, and electronic/written communication.

4. EXPULSION IC 20-33-8-14

In accordance with the due process procedures defined in this policy, a student may be expelled from school for a period no longer than the remainder of the current semester plus the following semester, with the exception of a violation of rule 13 listed under the Ground for Suspension and Expulsion in this policy.

GROUND FOR SUSPENSION OR EXPULSION (includes when and where discipline rules apply) **LEGAL REFERENCE: IC 20-33-8-14**

EXPULSION PROCEDURES LEGAL REFERENCE: IC 20-33-8-3

When a principal (or designee) recommends to the superintendent (or designee) that a student be expelled from school, the following procedures will be followed:

1. The superintendent (or designee) may conduct an expulsion meeting, or may appoint one of the following persons to conduct the expulsion meeting:
 - a. legal counsel
 - b. a member of the administrative staff who did not expel the student during the current school year and was not involved in the events giving rise to the expulsion.
2. An expulsion will not take place until the student and the student's parents are given notice of their right to appear at an expulsion meeting conducted by the superintendent or the person designated above. Failure by a student or a student's parent to request and to appear at this meeting will be deemed a waiver of rights administratively to contest the expulsion or to appeal it to the school board.
3. The notice of the right to an expulsion meeting will be in writing, delivered by certified mail or by personal delivery, and contain the reasons for the expulsion and the procedure for requesting the meeting.
4. At the expulsion meeting, the principal (or designee) will present evidence to support the charges against the student. The student or parent will have the opportunity to answer the charges against the student, and to present evidence to support the student's position. An attorney may not represent the student at the expulsion meeting, but the attorney may be available for consultation outside the meeting room during the course of the meeting.
5. If an expulsion meeting is held, the person conducting the expulsion meeting will make a written summary of the evidence heard at the meeting, take any action found to be appropriate, and give notice of the action taken to the student and the student's parents.

The student or parent has the right to appeal the decision of the person conducting the expulsion meeting to the school board within 10 days of the receipt of notice of the action taken. The student or parent's appeal to the school board must be in writing. If an appeal is properly made, the board must consider the appeal unless the board votes not to hear the appeal. If the board hears the appeal, it will consider the written summary of the expulsion meeting and the arguments of both the school administration and the student and/or the student's parents. The board will then take any action

deemed appropriate.

Expulsion means a disciplinary or other action whereby a student:

1. is separated from school attendance for a period exceeding ten (10) school days;
2. is separated from school attendance for the balance of the current semester or current year unless a student is permitted to complete required examinations in order to receive credit for courses taken in the current semester or current year; or

The student or parent's appeal to the school board must be in writing. If an appeal is properly made, the board will consider the appeal unless it votes not to hear the appeal. If the board hears the appeal, it will consider the written summary of the expulsion meeting and the arguments of both the school administration and the student and/or the student's parents. The board will then take any action deemed appropriate.

Any student who knowingly possesses, uses, provides, or transmits to another person or who is

Use of a drug authorized by a physician is not a violation of the rule.

In addition, the following policies are in effect regarding "look-alike" drugs. 3. For purposes of this rule, a destructive device is

- an explosive, incendiary, or overpressure device that is configured as a bomb, a grenade, a rocket with a propellant charge of more than four ounces, a missile having an explosive or incendiary charge of more than one-quarter ounce, a mine, a Molotov cocktail, or a device that is substantially similar to an item described above,
 - a type of weapon that may be readily converted to expel a projectile by the action of an explosive or other propellant through a barrel that has a bore diameter of more than one-half inch.

 5. The superintendent shall immediately notify the appropriate law enforcement agency when a student is expelled under this rule. **LEGAL REFERENCE IC 20-33-8-16**

D. Possessing a Deadly Weapon

E. “Child Exploitation,” I.C. 35-42-4-4 (b) & Child Pornography, IC 35-42-4-4 (c)

Sending, sharing, viewing, or possessing pictures, text messages, emails, or other material of a sexual nature in electronic or any other form is a ground for suspension or expulsion.

A practical example of “child exploitation” involving a cell phone would be a student of any age who used the phone to (1) take a picture, (2) show a picture, (3) send a picture, or even offer to show or send the picture of any person under the age of 18 engaged in “sexual conduct” and/or the display of inappropriate nude pictures.

Important Notice to Students & Parents Regarding Cell Phone Content & Display

- o The Child Abuse/Neglect Law requires school personnel to report to law enforcement or child protective services whenever there is reason to believe that any person/student is involved with “child exploitation” or “child pornography” as defined by Indiana Criminal Statutes.

- o It is “child exploitation,” a Class C felony under IC 35-42-4-4(b) to exhibit, photograph, or create a digitalized image of any incident that includes “sexual conduct” by a child under the age of 18.
- o It is “child pornography,” a Class D felony under IC 35-42-4-4© for any person/student to possess a photograph, motion picture, digitalized image, or any pictorial representation that depicts or describes “sexual conduct” by a child who the person knows is less than 16 years of age or who appears less than age 16.

F. Cell Phone, Beepers and Laser Pointers in School Prohibited P.L.108-1994,HEA1202

This prohibits knowingly possessing or using on school grounds during school hours an electronic paging device or a hand held cellular telephone in a situation not related to a school purpose or an educational function, In addition, students will not possess or use a laser pointer while on school property or while attending a school-sponsored activity on or off school property unless under the supervision of a staff member and in the context of instruction.

Consequences:

First Offense Electronic device removed and returned at the end of the school day.

Second Offense Electronic device removed and parents contacted to pick it up.

Third Offense Electronic device removed and student assigned to detention.

(Administration reserves the right to add additional consequence to students violating this policy more than two times per year.)

G. LEGAL SETTLEMENT

A student may be expelled if it is determined that the student’s legal settlement is not in the attendance area of the school where the student is enrolled.

However, the offense is a Class D felony if the person to whom the threat is communicated is an employee of a school corporation or the threat is communicated using property, including electronic equipment or systems, of a school corporation or other governmental entity.

J. UNLAWFUL ACTIVITY

A student may be suspended or expelled for engaging in unlawful activity on or off school

grounds if the unlawful activity may reasonably be considered to be an interference with school purposes or an educational function, or the student's removal is necessary to restore order or protect persons on school property. This includes any unlawful activity meeting the above criteria, which takes place during the weekends, holidays, other school breaks, and the summer period when a student may not be attending classes or other school functions.

SCHOOL ZONE SENTENCE ENHANCEMENT FOR DRUG AND GUN CRIMES:

Indiana law allows enhanced sentences for certain drug (I.C. 35-48-4) and gun (I.C. 35-47-2-23) crimes committed on a school bus, on or on school property or within 1,000 feet of school property. The state does not need to prove that children were present at the time of the crime or that the defendant knew he was on or near school property.

LOCKER STATEMENT

All lockers made available for student use are the property of the school corporation. These lockers are made available for students to use in storing school supplies and personal items necessary for use at school.

The student's use of the locker does not diminish the school corporation's ownership or control of the locker. The school corporation retains the right to inspect the locker and its contents to insure that the locker is being used in accordance with its intended purpose, as provided by Indiana Law (IC 20-33-8-32)

Padlocks will not be permitted on school lockers. However, students may use a combination lock, if the combination is registered with the classroom teacher and in the office. The school is not responsible for items missing from lockers; therefore, we encourage all students to use a combination lock.

- A. As used in this section, "reasonable cause for a search" means circumstances, which would cause a reasonable person to believe that the search of a particular person, place, or thing will lead to the discovery of:
 - 1. Evidence of a violation of the student conduct standards contained in the student handbook.
 - 2. Anything that, because of its presence, presents an immediate danger of physical harm or illness to any person.
- B. All lockers and other storage areas provided for student use on school premises remain the property of the school corporation and are provided for the use of the students subject to inspection, access for maintenance, and search pursuant to this section. Unapproved locks shall be removed or destroyed.

WEATHER & OTHER EMERGENCIES

Student Well-Being

Student safety is a responsibility of the students & staff. All staff members are familiar with emergency procedures, such as evacuation procedures, fire drills, tornado drills, **lockdown drills**, and other safety drills.

Should a student be aware of any dangerous situation or accident, he/she must notify any staff person immediately.

Fire, Tornado, & Other Safety Drills

The school complies with all fire safety laws and will conduct fire drills in accordance with State law (one per month). Tornado drills will be conducted using the procedures prescribed by the State (2 per semester). Safety drills will be conducted at least once per school year. Specific instructions on how to proceed for each type of drill will be provided to students by their teachers.

Weather Emergencies

The State of Indiana requires that all students attend 180 days of school. Current law now states that if school is closed for any reason, students will be required to make up the lost day. Therefore, school closings this year will have more impact on all of our families. Officials will determine as early as possible the necessity to close or delay the start of school for the day based on safety considerations for school bus operations.

If roads are passable, we intend to have school. Should our roads not be passable at the beginning of the school day, we may have to delay the opening of school or close school. If a storm happens during the day and the roads are going to become impassable, we may close school early. With each of these occurrences we need your help. Some things you should know and ways to help are listed below. Please take some time to become familiar with these procedures and retain this for a reference.

TERMS YOU SHOULD KNOW

SCHOOL DELAYED - This term will mean that school will start at a time later than normal. It will usually be for two hours but could be longer. A two-hour delay would mean if your child were to meet the bus at 7:30am the bus would come at 9:30am. Those students not riding buses should arrive after 9:35am. If we have a two-hour delay, we will not serve breakfast. If we have a one-hour delay, we will serve cereal.

SCHOOL CLOSED - This term will be used if school is closed for the entire day. It also means all events for the day will be cancelled and rescheduled. This day will be made up.

EARLY DISMISSAL - This term will be used when a storm or other emergency makes it necessary to close early. Due to the nature of our transportation system, if one school is closed so will the other schools in the corporation.

EMERGENCY ROUTES - This term may be used if special bus routes are developed for transportation of students. You will be notified of such routes either through the media, note from school, or your child's bus driver. Buses will travel and pick up students on passable roads only. When emergency routes are operating, if your child is not picked up by the bus in the morning, then he/she will not be allowed to ride the bus home that evening.

PARENTS' RESPONSIBILITIES

1. Always dress your child properly and warmly. If a bus has a problem, warm clothing will be necessary.
2. Make sure your child can get into the house or knows what to do in case of early dismissal, delayed start, closing, or bus turn around. It is essential that you plan for such occurrences so your child will not be left in a dangerous situation.

3. You are requested NOT to contact the school about whether schools will be opened or closed. Phone lines are important to the schools in assessing the situation and making important announcements to bus drivers and news media. If a true emergency exists, it is understandable that it may be necessary to contact the school; however, you should have made arrangements ahead of time for your child (ren).
4. You should be familiar with your bus driver. If you have questions about the route's alternate pickup points in case certain roads are not passable, you should contact your bus driver. Many drivers will have a phone tree to relay emergency information to the riders.
5. Should conditions become so bad that it is not safe to transport students home they will be retained at school. This will be announced through the news media and the police scanners. Every attempt to notify you by phone will be made by the schools. Your child will be returned home as soon as the roads are passable the next day.
6. No child will be permitted to go home with another student, relative, or family friend without prior written consent to the school by the parent. It is the parent's responsibility to see that such consent is on file with the child's school.
7. On some days, when school is in session, certain roads or sections might be blocked, even though other areas are passable. In such cases, buses will attempt to run those stretches of roads, and students who are thus missed will not be counted absent. Students from such areas brought to school by parents must then be taken home by parents, as buses will not run on roads in the afternoon that they could not run in the morning.
8. You should always assume school is open, unless you are notified otherwise by the media.

NOTIFICATION PROCEDURES

A decision to close school will normally be made in the morning. Only unusual circumstances will require the closing of school the night before. Decisions are usually made before 6:30 A.M., however, changing conditions could delay the announcement to a later time.

Parents will be notified of school closings, delays or other related information through our automated calling system, *School Messenger*. You will be notified as soon as a decision is reached at the “Alert Numbers” that you have provided at Registration.

TRANSPORTATION

Please note that all school rules apply at any time that a student is riding a school bus.

- A. NO high school student will be allowed to park a vehicle at either Elementary School building during the school day.
- B. Bus transportation is a service provided by the School Board of Trustees as a convenience to those who live in rural areas beyond a reasonable walking distance from school. Students who use this service come under the supervisory jurisdiction of the schools from the time they board the bus on their way to school until they depart from the bus on their return home. **STUDENTS AND PARENTS ARE REMINDED THAT BUS TRANSPORTATION TO AND FROM SCHOOL IS A PRIVILEGE AND NOT A LEGAL RIGHT.**
- C. Students are expected to maintain a level of behavior at least equal to that expected of them while at school. Those students who cannot maintain a reasonable level of self-discipline while riding as a passenger on a bus can and will be disciplined for unacceptable behavior. Those not responding to reasonable corrective action from the bus driver may be initially excluded for (1) day by the bus driver. If this exclusion and parent-driver conference does not solve the problem, school officials can and may exclude students from riding the bus for a period of time up to one semester through the normal Student Due Process procedures. This does not exclude the student from school attendance; however, it does shift the responsibility for transportation to and from school to the student and/or parents, totally.
- D. Exclusion from one bus is considered to be exclusion from all school and/or contracted buses for the period of the time specified.
- E. Any student absences resulting from bus exclusion will be deemed unexcused.
- F. Students must board and depart from their assigned school bus only at pre-designation stops as assigned by the Superintendent's Office or bus driver. Any variation from the procedure must be cleared in advance with the assigned driver and supported in writing to the assigned driver and approved by the main office in writing within 24 hours of the variation.
- G. The bus drivers are responsible for the transportation of those assigned students from their home to their school and return in the evening.
- H. No child shall ride with a student driver other than immediate family or a parent-designated adult.
- I. If there is to be a bus change, parents must send a note with the child to be shown to the driver and the classroom teacher or office one day in advance.
- J. General Education students must be able to get on & off the bus on their own, i.e. with crutches, etc.

VIDEOTAPES ON SCHOOL BUSES

The School Board has authorized the installation of video cameras on school buses for purposes of monitoring student behavior. If a student is reported to have misbehaved on a bus and his/her actions were recorded on a videotape, the tape will be submitted to the principal and may be used as evidence of the misbehavior. Since these tapes are considered part of a student's record, they can be viewed only in accordance with Federal law.

BUS RULES FOR STUDENTS

Riding the school bus is a privilege extended to students that can be taken away for disruptive or unsatisfactory behavior. All children being transported are under the authority of the bus driver and must obey his/her requests.

- Each student shall be located immediately, upon entering the bus, in the place assigned by the driver.
- No student shall stand or move from place to place during the trip.
- Loud, boisterous, or profane language or indecent conduct shall not be tolerated.

- No windows or doors will be opened or closed except by permission of the driver. Students are responsible for closing windows before exiting the bus.
- Students shall not be allowed to tease, scuffle, trip, hold, hit or use their hands or feet or body in any other objectionable manner.
- No students shall enter or leave the bus until it has come to a full stop and the driver has opened the door.
- The child should be waiting at his/her boarding station when the school bus arrives. In case of an emergency causing late arrival by the pupil at his/her station, the bus driver will be required to stop and make a reasonable attempt by looking for the student approaching the bus without causing the route to be delayed.
- Upon recommendation of the bus driver, school authorities may deny the privileges of riding on the school bus to any pupil who refuses to conduct himself or herself in a gentlemanly or ladylike manner.
- A student who boards a bus in the morning will ride the full route to school. This holds true en route from the school to his/her home.
- A driver may dismiss a student to another scheduled stop ONLY with the written request of a child's parent or guardian, AND consent from the school.
- Students experiencing problems should report them to the bus driver.
- All school rules apply to bus pick-up and drop-off points, and while riding on the bus.
- The bus driver shall be responsible for issuing verbal warnings to students as well as documentation of a disciplinary report if unacceptable behaviors continue. The driver will also verbally notify a student if a disciplinary report will be submitted to the school.
- Other violations as determined by driver, owner, principal, and Indiana Law.

ATHLETIC PHILOSOPHY

It is the philosophy of the Southwest Parke Board of School Trustees that the elementary athletic program consists of organized interscholastic competitions. The Board recognizes that winning should be a goal for any interscholastic competition, but it will not supersede the central focus of promoting the development of skills, self-discipline, good sportsmanship, and enjoyment of the sport. All students who participate in the programs shall receive approximately equal amounts of playing time over the course of the season. It is the Board's belief that everyone should play and students will only be cut from teams for disciplinary or academic reasons. The principal will have the final say in all disciplinary and academic matters.

At the secondary level (grades 7 through 12), it is the Board's philosophy that the goal of winning takes a more prominent role at this level of competition. However, the Board still believes that the overall emphasis should still focus on the development of skills, self-discipline, good sportsmanship, and enjoyment of the sport. The head coach of each varsity sport shall be given the responsibility for the establishment of the amount of playing time and the determination as to if and when cuts will be made on the various teams within that sports program. The head coach's determination in such matters shall be communicated to the Athletic Director. The building principal shall also have input into the final determination.

OBJECTIVES OF THE ELEMENTARY ATHLETIC PROGRAM

The Southwest Parke Elementary Athletic Program shall consist of an organized interscholastic athletic program in which boys and girls in grades five and six are encouraged to participate. Emphasis of the program will be the development of skills, learning the fundamentals of the game, teamwork, self-discipline, and having fun. Although winning will still be a goal, it will not be a top priority. **All the students who participate in the sport will receive about the same amount of playing time, with the exception of tournament play.** At this young level, it is believed that everyone should play.

Players are representatives of their elementary schools. Therefore, sportsmanship is of the utmost importance at all times. Although practices and games are held after school, school rules are still applicable regarding behavior and conduct.

Practices will start three weeks prior to the team's first game.

Due to the large number of basketball teams in the Southwest Parke school district, the Athletic Director at Riverton Parke Jr.-Sr. High School has the primary responsibility of scheduling practices at all three gyms. Every effort will be made to have the elementary teams practice at their coach's first option.

At the end of the school year all fifth and sixth grade students who participated in any athletic sport; basketball, cheerleading, or football will be recognized at their prospective elementary school.

Student Eligibility - Extra Curricular Activities

The Board of School Trustees of the Southwest Parke Community School Corporation recognizes that extra-curricular activities are important enrichment experiences. However, it is the position of the Board that participation in such activities is a student's privilege and not a student right. This policy reflects the belief that academic achievement and responsible behavior must be emphasized over participation in extra-curricular activities. Therefore, students must be in good academic standing and have good citizenship before they devote time to extra-curricular activities. The following eligibility requirements must be met before a student can participate in activity clubs, athletics, student council, overnight trips, and/or trips consuming class time with the exception of authorized class field trips.

Extra-curricular activities are defined as those activities that students participate in outside the regular school day that are not mandatory to meet course requirements. The student's grade will not be

determined by whether he/she participates in the activity. These activities may or may not be related to a specific course offering.

Co-curricular activities are defined as activities in which students can be involved in order to partially fulfill the requirements of a particular course. The student's grade may be determined by participation in the activity.

In order to participate in the above-mentioned extra-curricular activities, a student must be in good standing with the school in an academic and behavioral sense. This means:

Students in grades 7 through 12

FOR ALL STUDENTS: Students must not be on an Attendance Agreement that prevents students from participating in ECA activities.

FOR STUDENTS IN GRADES 6 (or any : To participate in extra-curricular activities, a student must meet at least one of the following criteria:

- Pass ALL 'core' courses (Reading, Language Arts, Math, Science, Social Studies) and have a passing grade in 'conduct' each time they appear on the student report card.

Students in Grade K through 12

1. When a student is serving after school detention for any disciplinary reason it is understood that the detention takes precedence over participation in extra-curricular activities.
2. In grades K through 6, students receiving in-school suspensions cannot participate in extra-curricular activities the night the in-school suspension is served.
3. Any student who is expelled from school for any disciplinary reason shall not be permitted to participate in extra-curricular activities for one (1) grading period following his/her return to school. During this time it is expected that the student will show intent to seriously pursue his/her academic education and fulfill his/her responsibilities as a student to the rules and regulations of the school. Students returning in the fall from a spring semester expulsion will not be permitted to participate in extra-curricular activities for the first nine weeks of the new school year.
4. None of the above is seen as a forfeiture of the right and responsibility of the school administration to protect the image of the school by removing a student from participation in any extra-curricular activity at any time that the student's participation is not in the best interest of the School Corporation.
5. None of the above is seen as a forfeiture of the right of coaches or sponsors of extra-curricular activities to set additional approved rules that regulates participation of students in extra-curricular activities.
6. A student who misses more than one-half of the regular school day must receive approval of the principal or his/her designee to participate in extra-curricular activities that evening.

NOTICE TO INDIVIDUALS WHO TRANSPORT TO EXTRA-CURRICULAR EVENTS

This notice is to advise those individuals who may transport students at Southwest Parke Community School Corporation to extra-curricular events of the school corporation that the corporation liability insurance coverage will not provide coverage for them should they be involved in an accident.

The insurance coverage purchased by Southwest Parke Community School Corporation will only provide a defense to Southwest Parke if the school is also sued and will not provide any benefits or coverage to the individuals transporting the students to extra-curricular events. The individuals transporting those students are expected, pursuant to state law, to have coverage on their own vehicles that will cover in the event of an accident or injury.

COUNSELING DEPARTMENT

Rosedale Elementary has a full-time school counselor.

The school counselor, throughout the school year, will work with students in the classroom, small groups, and individually. Counseling services will address normal developmental concerns that students are experiencing or may experience which could affect their ability to reach their potential. Classroom topics will range from improving self-concept, school adjustment, and communication skills for younger students to interpersonal relations, effective learning skills, decision-making skills, and conflict resolution for the older students. Small groups may meet to help students develop peer relationships, learning to control their anger, cope with divorce or death, or other similar issues, which may be necessary for students. Students may also be seen alone to prevent problems or find solutions to present difficulties.

Other services provided by the school counselor will be to serve as the Case Conference Coordinator for special education services, to work with the Teacher Assistance Teams, and to consult with parents and teachers.

If you have any questions concerning the counseling program or feel that your child has a specific need, please call the school counselor.

HEALTH SERVICES

Students who become ill while at school will be referred to the health office for assessment. If a student is too sick to remain in class, the parent/guardian or emergency alternate will be notified and the child will be sent home.

If your child has been ill during the night, or appears ill in the morning, keep him/her home from school. Be alert for fever, headache, sore throat, flushed cheeks, glazed eyes, upset stomach, frequent cough, and runny nose. Consult your physician for diagnosis and treatment, if necessary. The following guidelines for a few common conditions/diseases may help you determine when your child is ready to return to school.

GENERAL ILLNESS: Child should be fever free for 72 hours before returning to school.

CHICKENPOX: Child may return to school when all eruptions (pox) are dry and/or scabbed.

CONJUNCTIVITIS: Commonly referred to as "Pink Eye" Child may return to school 24 hours after treatment with prescribed eye medication and no drainage from the eye(s).

SCABIES: Child may return to school 24 hours after treatment with lotion prescribed by a physician and a note from the physician verifying treatment.

IMPETIGO: Child may return to school after being on medication for 24 hours and if areas are dry and well crusted.

MENINGITIS:

A new Indiana law requires each year that parents/guardians be informed "about meningococcal disease and its vaccine" (IC 20-30-5-18). Please read the following information.

Meningococcal disease is a dangerous disease that can strike children and youth. The disease can progress rapidly and within hours of the first symptoms, may result in death or permanent disability including loss of hearing, brain damage, and limb amputations.

Symptoms of meningococcal disease often resemble the flu and can include a fever, headache, nausea, and stiff neck, making the disease difficult to diagnose.

The bacteria that cause meningococcal diseases are transmitted through air droplets and by direct contact with an infected person. Fortunately there is an immunization available and the U.S. Centers for Disease Control and Prevention recommends routine meningococcal immunizations at 11 to 12 years old. For teenagers, immunization is recommended at high school entry and incoming college freshman.

Please talk with your child's health care provider about meningococcal disease and vaccination.

PEDICULOSIS: (Commonly referred to as head lice) The Center for Disease Control no longer recommends that students be sent home for an active (live) case of head lice. They also do not promote checking every student in the classroom if a student does have head lice. If a student is suspected of having head lice he/she will be sent to the health clinic or office for evaluation. A thorough inspection for **live** lice will be completed by the nurse or designee. If **live** lice are found then we will attempt to notify parent/guardian of the findings. If the parent/guardian is able to pick up their student we will send them home. However, if no one is available to pick up the student then **they will be allowed to return to the classroom**. Information regarding head lice and methods to eliminate

the lice will be given to the student before he/she goes home. The student may return to school the next school day but must provide proof of treatment (send package of treatment used) when they return. They may be checked again upon their return to school.

While we do check classrooms periodically for lice, we ask that parents/guardians also check their student periodically. If lice are discovered at home then we ask that you notify the school so that the student's classroom can also be checked.

STREP THROAT: Child may return to school after 24 hours of antibiotic therapy and fever free for 24 hours.

SCARLET FEVER: Child may return to school after 24 hours of antibiotic therapy and fever free for 24 hours.

SCARLATINA: Child may return to school after 24 hours of antibiotic therapy and fever free for 24 hours.

ADMINISTRATION OF MEDICATION

The purpose of administering medication at school is to help each student maintain an optimal state of health. Medications should be given at home whenever possible. If it is necessary for your child to take medication at school the following information is needed:

1. Student's name
2. Medication name
3. Time medicine should be given at school
4. Time medicine is given at home
5. Medication dosage
6. Health problem being treated
7. Special precautions (side effects)
8. Length of time student will be on medication
9. Signature of parent/guardian

All medication must be sent in the original container. Medications are to be kept and dispensed from the office. We will not be able to dispense medication if these guidelines are not met.

Parents should contact the school nurse regarding special health problems your child may have (examples: asthma, allergies, chronic illness).

You have the option of giving consent for Tylenol, Cough drops, Roloids/Tums, and/or Ibuprofen to be given at school. However, you will need to send the medication to the school for your child to use. If your child has a headache or slightly elevated temperature (less than 100.0 degrees F) then designated school personnel can give appropriate medication if consent is on file. NOTE: If your child has a temperature above 100.0 degrees (F) they will be sent home.

PLEASE NOTE THAT THERE IS A SEPARATE CONSENT FOR ADMINISTRATION ON OF MEDICATION FORM THAT WILL NEED TO BE SIGNED FOR ANY OTHER MEDICATION THAT IS TO BE GIVEN AT SCHOOL. (In case of an emergency, Tylenol will be available at the school, but will not be given without verbal consent from a parent/guardian).

Students can bring in cough drops to have in their classrooms, but they must be in a bag labeled with the student's name on it. The original bag is preferred but a clear Ziploc bag will also be accepted.

The student will have to give the classroom teacher the bag so that they can be stored in a safe place. The student cannot have the cough drops in their desk. They will be given to the student at the teacher's discretion. Cough drops will also be available in the main office or nurse's office. Students are not to keep any other type of medication in their classroom.

INDIANA LAW SECTION 808

Teachers shall immediately send home any pupil who shows indication of being ill, unclean, emits offensive body odors, or is infested with vermin. The truant officer shall arrest and prosecute parents or guardians who, when notified to do it, do not bathe or cleanse their children or wards, or do not rid their children or wards of vermin.

Accordingly, the Southwest Parke School Corporation has established the following procedure for those students who are sent to school unclean.

Some guidelines for determination include: unwashed skin, offensive body odor, clothes that are consistently visibly dirty.

PROCEDURE:

1. The teacher privately discusses child corrective hygiene measures. The teacher will refer the child to the school nurse or school social worker if there is a problem with hot water in the home, no soap, or unusual circumstances.
2. On the second complaint of uncleanliness, the teacher will refer the child to the school nurse, who will discuss hygiene measures and contact parents or guardians. For those circumstances where phone contact is not possible, a letter will be mailed to the parent/guardian. The child will be sent home if the situation warrants.
3. In the event of a third incident of uncleanliness, the Parke County Family & Children Services office will be notified. The child will be sent home from school and each successive report will be treated as outlined in step three.

(b) The statement must show, except for the student to whom IC 20-34-3-2 or IC20-34-3-3 applies, that the student has been immunized as required under section 2 of this chapter. The statement must include the student's date of birth and the date of each immunization.

(c) A student may not be permitted to attend school beyond the first day of school without first furnishing the written statement unless: 1. The school gives the parent of the student a waiver, or 2. The local health department or a physician determines that the student's immunization schedule has been delayed due to extreme circumstances and that the required immunizations will not be completed before the first day of school.

The waiver referred to in subdivision (1) may not be granted for a period that exceeds twenty (20) days. If subdivision (2) applies the parent of the student shall furnish the written statement and a schedule, approved by a physician or the local health department, for the completion of the remainder of the immunizations.

SOUTHWEST PARKE COMMUNITY SCHOOLS' INFORMATION & POLICY SECTION

NOTIFICATION OF AVAILABILITY OF ASBESTOS MANAGEMENT PLAN

The 1987 Asbestos Hazard Emergency Response Act (AHERA) required asbestos inspections of all public and private schools (K - 12 grades) to identify asbestos containing building materials. After the inspection, an Asbestos Management Plan was developed to safely manage the identified asbestos in each school facility.

To ensure that the identified asbestos containing materials are maintained in a safe condition, AHERA also requires that the asbestos materials be checked every six months by trained school personnel and that these materials be re-inspected by an IDEM accredited inspector every three (3) years for as long as the materials remain in the building.

The six-month periodic surveillance inspections are routinely being conducted and the second triennial asbestos re-inspection of all school facilities has just been completed. The surveillance and re-inspection reports can be found in the Record keeping Section of the Asbestos Management Plan. Anyone wishing to view a copy of the Management Plan for an individual school will find it available in the Principal's office of each school. The Management Plan for all of the schools in the School Corporation is available for your viewing in the Superintendent's Office. The Management Plan may be copied at a nominal fee of \$.10 per page, during regular business hours by notifying the school in advance to prevent scheduling difficulties.

If you have any questions concerning the AHERA Program please contact your building Principal.

In an attempt to assure proper control of any pesticides that might be used on corporation premises, these procedures are established. "Pesticide" for application of these regulations only is defined as a fungicide used on plants, an insecticide, an herbicide, or a rodenticide.

The intent of this regulation is to prevent exposure of students and staff members to pesticides.

- 1) Pesticides will be applied only by pesticide applicators or corporation staff operating under the direct supervision of the Superintendent of schools or his designee. The following guidelines shall always be observed:
 - (a) A review of the corporation's pest control policy;
 - (b) A review of the label instructions for the pesticides to be used;

- 2) When possible, pesticide application will be done during non-instructional time or during vacation periods.

The building administration will then implement the notification requirements of the pest control policy and its regulations.
- 4) An emergency application of pesticides is defined as when an application of pesticides is necessary to eliminate an immediate threat to human health and where it is impractical to follow the 48-hour guideline. As long as a restricted use pesticide is not being used, the application may proceed following all guidelines presented in paragraph (1) above.
- 5) At the time of Registration for each school year, the Board shall provide the staff members of each school and the parents of each child enrolled in each school with a written copy of the Board's policy on pesticide applications, the name and telephone number of the school contact person for pest control information, and a request form to be placed on a list for advanced notice. This information may be given in the form of a memorandum or as a provision in the student and/or staff handbook. Prior to the application of pesticides within any building or on school grounds, the parents and staff members who have registered for prior notice shall receive a mailing no later than two (2) school days prior to the application when students or staff members will be present during the pesticide application. The school nurse will receive prior notice of all pesticide applications.

The aforementioned notice shall include the (1) name of the active ingredient of the pesticides anticipated to be applied if part of a routine service, (2) location of the application, (3) date of application, (4) approximate time and length of the application and (5) name and telephone number of the school administrator or his/her designee who may be contacted for further information.

- 7) Any pesticide application is prohibited when children are in the room or on school grounds in or near the treated area as it applies to the label directions of that particular pesticide.
- 8) If an emergency application is necessary to eliminate an immediate threat to human health, no person may enter the area of such application until it is safe to do so according to the provisions on the pesticide label.
- 9) In cases of an emergency application, prior notice is not required. Notice will be given to those persons who have previously requested notice of pesticide application as soon as possible after such application.
- 10) A copy of the records of each pesticide application at a school site shall be maintained for at least 90 days. The records will contain the following information:
 - (a) Date and time of the inspection and pesticide application;
 - (b) Pest found during the inspection;
 - (c) Brand name and active ingredient of pesticide(s);

The school principal upon request will make available the pesticide application information listed above for at least 90 days from the date of application.

- 11) Whenever practical, non-chemical controls shall be used. The least toxic formulations and safest methods of application will be selected when there is a choice of pesticide products with comparable effectiveness.
- 12) Storage of pesticides will be kept to a minimum. All pesticides label storage instructions will be followed explicitly. All such products and the application equipment will be stored away from food products or occupy rooms in a locked area clearly marked as containing pesticides.
- 13) All pesticide products will have complete label instructions, will remain in the original container and Material Safety Data Sheet will be on file and readily available to any employee who must handle such materials or who may have been exposed to the product. The corporation may provide for financial support of such training for employees designated by the Superintendent, or his/her designee, as needing such training. Such financial support will be subject to the availability of budgetary funds and approved by the Board.
- 17) The disposal of outdated pesticides or pesticides that become illegal to use will be done in accordance with specified label instructions or upon the advise of the EPA.

ADOPTED: March 21, 2001

REVISED: April 28, 2004

REGISTERED SEX OFFENDERS POLICY

Recognizing that the safety and welfare of students is of paramount importance, the Southwest Parke Community School Board hereby declares that, except in limited circumstances as defined below. The Southwest Parke Community School Board will not permit registered sex offenders to be on school property.

If any school administrator becomes aware that a sex offender is on school property, the administrator/designee shall direct the sex offender to leave the area immediately, except under limited circumstances as directed below. A registered sex offender may not attend school functions that are held on school property. The School Board authorizes a Southwest Parke administrator to request assistance of the appropriate law enforcement authorities to secure the removal of any registered sex offender from school property. Violations of this policy may subject a person to prosecution of the crime of criminal trespass.

A student who is on the sex offender registry may be assigned alternative education as deemed appropriate by school officials and consistent with State and Federal laws.

This policy shall apply only when principals/designees are aware that the person in question is on the Sex Offender Registry.

The provisions of this policy prohibiting a registered sex offender from coming on school property shall not apply in the event that a sex offender's name has been expunged from the Registry.

Limited Circumstances: Limited circumstances may occur when a registered sex offender has either a right or a legitimate educational need to come upon school property. In such a case, prior to entering school property, the registered sex offender must contact the school to establish a written Individual Access & Child Protection Plan. An IACPP will be established by discussion with the school administrator or his/her designee. The plan and approval will be in writing with signatures of involved parties. Only after there is an approved IACPP may the registered enter school property and may only do so within the restrictions of the IACPP. In the case of an emergency situation involving the welfare of a child, a person who is on the sex offender registry may be invited to school for that particular purpose under monitoring established for that event by the administrator of the school site.

The request to the principal to amend a student's records must be made in writing within 10 school days of the date the records were first examined.

If the principal, after consulting with any other person having relevant information, decides not to amend the record as requested by the parent or eligible student, the principal shall notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures shall be provided to the parent or eligible student when notified of the right to a hearing.

A request for a formal hearing must be made in writing and addressed to the superintendent of schools. The response to the request shall be mailed within 20 school days. The hearing shall be held in accordance with the following.

- d. The official designated above shall make a decision in writing within 10 school days following the conclusion of the hearing and shall notify the parent or eligible student of the decision by certified mail.
- e. The decision of the official shall be based upon the evidence presented at the hearing and shall include a summary of the evidence and the reason for the decision.
- f. The decision shall include a statement informing the parents or eligible student of their right to place in the student records a statement commenting upon the information in the records and/or setting forth any reason for disagreement. Any explanation placed in the records shall be maintained by the school district. If the student record is disclosed by the school to any other party, the explanation shall also be disclosed to that party.

7. Disclosure with written consent

Whenever the district is required by law or policy to seek written consent prior to disclosing

personally identifiable information regarding a student, the notice provided to the parent/guardian or eligible student shall contain the following:

- a. The specific records to be released
- b. The specific reasons for such release
- c. The specific identity of any person, agency, or organization requesting such information and

the intended uses of the information.

- d. The method or manner by which the records will be released
- e. The right to review or receive a copy of the records to be released

Parental consent shall only be valid for the specific instance for which it was given. Consent for a student to participate in any course, school activity, and special education program or in any other school program shall not constitute the specific written consent required. All signed consent forms shall be retained by the school district.

8. Disclosure without written consent

The school district will disclose personally identifiable information from student records without written consent of the parent or eligible student only to those persons or entities allowed under federal or state law to receive such information.

The school district may disclose group scholastic achievement data from which the individual cannot be identified without written consent of the parent or eligible student.

9. Disclosure of disciplinary information to school personnel

The principal or designee is required to communicate disciplinary information concerning any student enrolled in the school to any teacher who has direct contact with the student in the classroom and to any counselor who has direct contact with the student. The purpose of this requirement is to keep school personnel apprised of situations that could pose a risk to the safety and welfare of others.

For purposes of this policy, "disciplinary information" means confidential records maintained by or in possession of the principal or designee on an individual student which indicate the student has committed an overt and willful act which constitutes a violation of the district's code of student conduct and/or there is reasonable cause to believe, through information provided to the principal from another credible source, that the student could pose a threat to the health and safety of other students and school personnel based on prior misbehavior.

"Disciplinary information" is intended to include only that information of a serious nature that is not otherwise available to teachers and counselors as part of the education records maintained on students or other reports of disciplinary actions. It is appropriate for instructional staff members to request disciplinary information from the principal or designee on students in their classrooms if there is concern that the student poses a threat to the safety of other students or school officials.

Any teacher or counselor to whom disciplinary information is reported shall maintain the confidentiality of the information and shall not communicate it to any other person. The principal or designee is required to inform the student and the student's parent/guardian when disciplinary information is communicated and to provide a copy of the disciplinary information. The student and/or the student's parent/guardian may challenge the accuracy of disciplinary information through the administrative regulations.

10. Disclosure to military recruiting officers

Names, addresses and home telephone numbers of secondary school students will be released to military recruiting officers within 90 days of the request unless a student submits a written request that such information not be released. Reasonable and customary actual expenses directly incurred by the district in furnishing this information will be paid by the requesting service.

11. Disclosure to criminal justice agencies

The superintendent, or designee, is authorized by law to share disciplinary and attendance information with a criminal justice agency investigating a criminal matter concerning a student enrolled or who will enroll in the school district when necessary to effectively serve the student prior to trial. Such information shall only be shared upon written certification by the criminal justice agency that the information will not be disclosed to any other party, except as specifically authorized or required by law, without the prior written consent of the student's parent/guardian.

12. Disclosure to other parties

Except as noted in this policy, student records will not be released to other individuals and parties without a written request and authorization of the parent or eligible student. Personal information will only be released to a third party with the assurance it will be kept confidential.

13. Disclosure of directory information

The school district may disclose directory information without written consent of the parent or eligible student. The parent or eligible student has the right to refuse to permit the designation of any or all of the categories of directory information if such refusal is received in writing in the office of the principal of the school where the student is in attendance no later than ten (10) days after the start of each school year. (See Denial of Permission to Release Certain Directory Information at the end of this handbook.)

14. Annual notification of rights

The district will notify parents and eligible students of their rights pursuant to this policy at the beginning of each academic year. The notice will be in the Parent Student Handbook. For notice to parents or eligible students who are disabled or whose primary or home language is other than English, the format or method of notice will be modified so it is reasonably likely to inform them of their rights.

PEST CONTROL APPLICATION NOTIFICATION REQUEST

Dear Parent,

The Southwest Parke Community School Corporation has implemented a pest control policy. Pesticides will be applied only by certified pesticide applicators or individuals operating under their supervision in school buildings or on school grounds. When possible, pesticide application will be done during non-instructional time or during vacation periods.

The school corporation is committed to providing students with a safe environment. It seeks to prevent children from being exposed to pests and pesticides. While pesticides protect children from pests that may be found in the school and surrounding grounds, under some circumstances they may pose a hazard to children. Therefore, pest control practices may involve a variety of chemical and non-chemical methods that are designed to control pests effectively while minimizing potential pesticide exposure to children.

Realizing that some students have medical conditions that are affected by certain chemicals, the school corporation is offering you the opportunity to register for advance notice of pesticide applications if you feel your child may be susceptible to any side effects generated by the application process.

By signing below, you are indicating that you would like advance notice of any pesticide applications.

SOUTHWEST PARKE COMMUNITY SCHOOL CORPORATION RESPONSIBLE USAGE POLICY

The corporation may modify these rules and guidelines at any time by publishing modified rules on the website. The signatures on the Responsible Use Policy at the end of this document are legally binding and indicate that the parties have read the terms and conditions carefully, understand their significance, and agree to abide by established rules.

Southwest Parke Community School Corporation (SWPCSC) is pleased to be able to offer our students access to computer technology, including access to the Internet as well as SWPCSC applications and information technology network. The computer system is the property of the corporation, and all computer software and hardware belong to it. Therefore, the district retains the right to monitor all access to and use of the Internet, e-mail, school accounts on both Google Application for Education and other curriculum providers, computers, and network. The system is designed to keep a record of all activity on and off the Internet, and this information is also corporation property. It is important for all users to understand that no use of the Internet or e-mail can ever be guaranteed private, even if it is not owned by SWPCSC. For the purposes of this program/policy, the term “device” also includes any similar product owned by SWPCSC and provided for student use as well as any technology equipment that accesses our network.

General Guidelines:

1. In order to utilize the SWPCSC network (specifically school provided devices, Internet access and related applications), students and a parent or legal guardian must review and sign the Responsible Use Policy.
2. The student is responsible for the condition of any school-provided device, including being charged and ready for the school day.
3. Devices may only be used in certain approved areas of the school. Students may not use any device in parts of the school designated as no technology zones or any other areas where devices are not permitted.
4. Students may not use any device or service for non-educational purposes during school hours, unless granted permission by a school administrator or teacher.
5. Students must use the SWPCSC's network when at school. Students may not use a cell phone or service provider's data network (3G, 4G, LTE, etc.) or any other wired or wireless network other than the corporation's network.
6. SWPCSC is not responsible for any data charges that a student may incur from a service provider as a result of not following our policy of only using the SWPCSC network while at school.
7. SWPCSC is not responsible for any data charges that a student may incur from a service provider as a result of using the school provided device while outside of our network.

8. No device, personal or otherwise, may be used to record, store, or transmit any type of image, sound, or video from SWPCSC, except for approved projects with the express permission of the teacher.
9. If an administrator has credible, specific, and reasonable suspicion that evidence exists of a violation of this agreement, SWPCSC policy and/or law may have occurred, or is about to occur, the student's device may be inspected and/or confiscated. This also applies to situations in which there is a reasonable, credible, and specific belief that a student's safety and/or well-being may be at risk. The search itself must be reasonable in scope and not excessively intrusive in light of the age and gender of the student and the nature of the suspected infraction.
10. Disciplinary action that may arise from a credible, specific, and reasonable search involving a handheld or other device and/or the misuse of technology may lead to the loss of technology privileges or any other action deemed appropriate by the Corporation under the circumstances related to any such disciplinary action taken.
11. These guidelines are consistent with the provision set forth in the Code of Conduct found in the Student Handbook.

School Curriculum

Students will be accessing several online programs/software, including, but not limited to the following: McGraw-Hill software, Clever, iReady, SAS Curriculum Pathways, Studies Weekly, BrainPOP, Google Apps for Education (GSuite products). This list is not an exhaustive list and may include any additional software/program deemed necessary by a teacher and approved by an administrator. Software and programs may change as curriculum needs change and by agreeing to this policy, you are agreeing to changes throughout the school year. This signed policy is also considered a waiver in order to allow student use of apps that require a waiver for students under age 18.

School-Owned Devices

Students will be held responsible for maintaining devices and keeping them in good working order while used in the classroom, on loan from the school library, or off of school premises if applicable. Devices that malfunction or are damaged must be reported to the appropriate staff designated by administrators at Riverton Parke Jr./Sr. High School and to a teacher or administrator at the elementary schools. The school corporation will be responsible for repairing the devices that malfunction. Punishment for devices that have been damaged from student misuse or neglect will be as follows:

1. first offense – \$50 or the cost of the repair (if cost to repair the device is less than \$50);
2. second offense - \$100 or total cost of the repair if it exceeds \$100;
3. third offense or if it is intentionally damaged – total cost of the device; student forfeits technology privileges for an amount of time determined by the Administrator and Director of Instructional Technology

Internet Safety - Children's Internet Protection Act (CIPA)

Southwest Parke Community School Corporation (SWPCSC) is in compliance with the Children's Internet Protection Act (CIPA) and has installed technology protection measures for all computers in the school corporation in order to aid in restricting access to materials that are harmful for minors. School personnel will monitor online activities of students and will educate them on safety/security measures when using e-mail, chat rooms, and other direct electronic communications. School personnel will also provide education about appropriate online behavior, including interacting with individuals on social networking sites and cyberbullying awareness and response.

User Account Passwords

All users, staff and students, are given an account upon their entry into the district. Any person to whom an account is given is the **only** person to use that account. Each user is responsible for the security of the system. Passwords should not be shared. If a user shares a password with another, that user is as responsible for any ensuing action as the person actually performing the action, and will be held accountable.

Internet Access

The Internet can contain information that may be judged as inaccurate, abusive, profane, sexually oriented or illegal. SWPCSC does not condone or permit the use of this material and has a content filter in place to prevent what is reasonably possible from being viewed. The use of technology within the school setting is a privilege, not a right and it is a joint responsibility of school personnel and the parent or guardian of each student to educate the student about his or her responsibility when using the Internet.

Parents and guardians must be aware that while at school, although content filtering is in place the direct supervision by school personnel of each student using the computers is not always possible. Thus, students are expected to use the resources in a manner consistent with this contract and will be held responsible for their use. Additionally, parents should discuss with their children their own expectations for their child's Internet use.

Electronic Mail (E-Mail)

Students will be assigned internal e-mail addresses by the corporation through Gmail through our participation in Google Apps for Education. All e-mail must follow the rules of appropriate use. The only external email students will have access to is from colleges or universities, or programs designed to aid in college or planning for the future at the request of a student and approved by an administrator.

Activities that Are Not Permitted

- searching, viewing, sending or retrieving materials (including social media sites) that are not related to school work, community service, employment or college information (hence, searching or viewing sexually explicit, profane, promotion of violence or hate, or illegal materials is not permitted);
- plagiarism, copying, saving or redistributing copyrighted material (users should assume that all material is copyrighted unless explicitly noted); Source, author, website source and date accessed, etc. must be present on any printed copy or inclusion in any paper, on the same basis as using quotes from a text book or periodical;
- subscription to any services;
- any use of district computers for financial gain;
- sharing of the user's or another's home address, phone number or other personal information;
- playing games or using other interactive sites such as chats, unless specifically assigned by a teacher;
- unauthorized access, including "hacking", and any activity that violates a school rule or a local, state or federal law;
- offenses such as threats, theft, and violation of another person's rights will result in prosecution to the full extent of the law;
- forging electronic mail messages or using an account owned by others;
- gaining or attempting to gain unauthorized access to the files of others, or vandalizing the data of another user;
- invading the privacy of others;
- posting anonymous messages.

If a student has any questions about whether a specific activity is permitted, he or she should ask a teacher or administrator.

Student Rights

Students' right to free speech applies to communication on the Internet. SWPCSC's electronic network is considered a limited forum, similar to the school newspaper, and therefore the district may restrict a student's speech for valid educational reasons.

An individual search will be conducted if there is reasonable suspicion that a student has violated this policy or the law. The investigation will be reasonable and related to the suspected violation.

Due Process

The district will cooperate with local, state, or federal officials in any investigation related to any illegal activities conducted through the district network. In the event there is an allegation that a student has violated the district responsible use policy, the student will be provided with a written notice of the alleged violation. An opportunity will be provided to present an explanation before an administrator.

Disciplinary actions will be tailored to meet specific concerns related to the violation and to assist the student in gaining the self-discipline necessary to behave appropriately on an electronic network. Violations of the responsible use regulation and policy may result in a loss of access as well as other disciplinary or legal action.

If the violation also involves a violation of other provisions of other school rules, it will be handled in a manner described in the school rules. Additional restrictions may be placed on a student's use of his/her network account. Users granted access to the Internet through the Corporation's computers assume personal responsibility and liability, both civil and criminal, for uses of the Internet not authorized by this Board policy and its accompanying procedures.

Limitation of Liability

The corporation makes no guarantee that the functions or the services provided by or through the district network will be error-free or without defect. The district will not be responsible for any damage suffered, including but not limited to, loss of data or interruptions of service. The corporation is not responsible for the accuracy or quality of the information obtained through or stored on the network. The corporation will not be responsible for financial obligations arising through the unauthorized use of the network.

PARENT OR GUARDIAN

By signing below I certify that: I have read the Responsible Use Policy for School Technology and I understand its significance. I have discussed the rules for technology use with my child. I understand that access to technology is designed for educational purposes and it is the student's obligation to use the resources in a responsible manner. I recognize it is impossible for the school district to totally restrict access to controversial materials and I will not hold them responsible for materials my child may acquire on the network. I accept full responsibility for supervision of my child's technology and internet use outside of school. I hereby give my permission for my child to use school technology and certify that the information contained on this form is correct.
