USE OF SCHOOL FACILITIES PROCEDURES

School building and grounds represent a heavy investment by taxpayers of the local school district. It is the desire of the board of education that maximum use be made of the facilities under their jurisdiction for educational and recreational activities. To extend the privileges of using the facilities, the board of education finds it necessary to see compliance with its regulation governing the use of school buildings and facilities.

General Regulations

1. A building use permit must be completed by the applicant. The superintendent or their designee will administer all facilities use requests. In the event this policy does not cover an unforeseen circumstance, the superintendent is authorized to assess specific arrangements and fees.
2. The building permit must be approved by the building administrator and the superintendent.
3. School activities take precedence for usage.
4. A deposit will be required if deemed necessary by the building administrator or the superintendent.
5. Groups who use the building will be responsible for all damages incurred during their time of use.
6. A minimum of 2 hours of overtime will be charged if school employees are required for any activity or for any follow-up activity, for any reason, even if they are not initially requested. In such an event, the payment of overtime will apply to any group even if rental fees are waived. It is imperative that any used part of the facility be returned in the condition in which it was first found if fees are not to be assessed.
7. For use of a kitchen, a kitchen employee shall be present at the user's expense when using kitchen appliances or equipment. The employee shall be paid at the overtime rate for a minimum of two hours. Overtime will not apply if a kitchen employee wants to volunteer to supervise such an activity.
8. USD employees who voluntarily agree to supervise groups shall not be paid for their services.
9. All groups using school facilities must abide by district and building rules.
10. Building employees may use the building for personal use with prior approval of their principal and the superintendent.
11. Outside groups are subject to their own risk and might consider purchasing insurance for liability coverage. Outside groups may contact the district office for insurance options which are endorsed by the Kansas Association of School Boards.
12. Commercial groups will be limited in the number of times they may use facilities.
13. The baseball/softball complex rental requires in addition to the fees listed below a charge for lights when used and the same employee charges as listed in # 7 above.
