

How to create & use The FSA ID

What's an FSA ID? The FSA ID is a username and password combination you use to log in to U.S. Department of Education (ED) online systems. The FSA ID is your legal signature and shouldn't be created or used by anyone other than you—not even your parent, your child, a school official, or a loan company representative. You'll use your FSA ID every year you fill out a Free Application for Federal Student Aid (FAFSA®) form and for the lifetime of your federal student loans.

How do I get an FSA ID? Use the QR Code below to visit StudentAid.gov/fsa-id/create-account/launch to create an FSA ID. You'll need your Social Security number, full name, and date of birth. You'll also need to create a memorable username and password, and complete challenge questions and answers so you can retrieve your account information if you forget it. You'll be required to provide either your email address or your mobile phone number when you make your FSA ID. Providing a mobile phone number and/or email address that you have access to will make it easier to log in to ED online systems and allow additional account recovery options. **Important:* A Social Security number, email address, and mobile phone number can only be associated with one FSA ID. If you share an email address with someone else, then only one of you will be able to use that email address to create an FSA ID.
