- Reading/Approval of Minutes
 - Minutes approved
- MADD Presentation
 - Kathy Davidson
 - Kathy spoke with us about the presentations available to the school district. She can come to the campus and present the information to the students in any grade. She left information sheets with us.
- Narcan Placement
 - Need to decide if they will be available to the entire district or just 6-12th. Our elementary campus would benefit from having them there as well.
 - SHAC decided to place Narcan district wide with more on the secondary campus.
 - Currently have 24 boxes and 48 doses of nasal spray narcan
 - Buses/travel vehicles
 - We discussed placing Narcan on each bus. Due to manufacturer storage recommendations I will discuss possible placement with Lori Rowland. Possibly a small bag attached to the bus keys so that the Narcan is not kept in any extreme temperatures.
 - Ballard gym and fields.
 - We will have Narcan placed at the Ballard gym as well as the baseball and softball fields.
- Life Vac
 - Not FDA approved. It is FDA registered.
 - Not enough data at this time for major studies.
 - Would be the last resort if the Heimlich maneuver is unsuccessful after 5 cycles.
 - We discussed wanting to have a LifeVac available. We will develop a policy and procedure to have the school board approve. We agreed that

the LifeVac should only be used after unsuccessful attempts of the heimlich maneuver.

- Brook Rogers made a motion to present placing LifeVacs on both campuses to the school board and Ashley Graves seconded it. Motion passed 6-0.
