

Kindergarten Parent Survey

Royal Valley Elementary

Dear Royal Valley Kindergarten Families

A new requirement for the State of Kansas is measuring Kindergarten Readiness. All families with students entering Kindergarten programs are requested to complete questionnaires designed to give your student's teacher much needed developmental information for where your child is learning and developing. The survey will take about 30 minutes to complete. Please complete **both** surveys, **ASQ-3** and **ASQ-SE** during enrollment or kindergarten roundup. .

Because your child's first 5 years of life are so important, we want to help you provide the best start for your child. You've been invited to participate in two different Ages & Stages Questionnaires.

- **Ages & Stages Questionnaires, Third Edition (ASQ-3)**, online screening to help you keep track of your child's development. You will be asked to answer questions about some things your child can and cannot do. The questionnaire includes questions about your child's communication, gross motor, fine motor, problem solving, and personal social skills.
- **Ages & Stages Questionnaires®: Social Emotional, Second Edition (ASQ:SE-2™)**, online screening to provide a quick check of your child's social and emotional development. You will be asked to answer questions about some of your child's behaviors. The questionnaire includes questions about your child's ability to calm down, take direction and follow rules, communicate, perform daily activities (e.g., eating, sleeping), act independently, demonstrate feelings, and interact with others.

To participate in this screening, please access the following URL by typing it into your Internet Browser: <https://www.asqonline.com/family/07cf71>, Scanning this QR code with your camera app on a cell phone or tablet,

Or BY CLICKING THE LINK BELOW

[I am completing both the ASQ-3™ and ASQ:SE-2™ questionnaires.](#)

Click This Link to Access [ASQ Surveys](#) if for some reason you started and do not finish or are logged out. Please allow 30 minutes to complete the surveys. The survey must be started and completed in one session, you will not be able to save your progress and come back to it later.

Thank you,

Dr. Justin Moore
