March 1, 2024

Dear Parents/Families:

Due to recent electrical issues that caused school closures on December 19 and 20, we will need to make up for the missed days as the Maine Department of Education did not approve a waiver for the storm days. In response, the school board has approved the following plan:

March 15, 2024: Remote Learning Day: As this day was originally scheduled for a teacher workshop, students will receive learning materials to complete at home. These activities are designed to be completed without needing internet access. To support this day, breakfast and lunch will be provided on March 14, which students can take home for the next day.

May 11, 2024: Saturday School (8:00-11:30): On this day, despite it being a Saturday, school will be in session from 8:00 to 11:30. Additionally, our annual spring music concert is scheduled for 10:00 that morning, with doors opening to the public at 9:30. Transportation will be provided by buses, and both breakfast and lunch will be served.

We understand the importance of minimizing disruptions to family schedules and activities with this adjusted plan. As always, please feel free to contact me with any questions or concerns.

Sincerely,

Eric M. Brooks
Principal

Be Respectful. Be Safe. Be Kind.
