2024-2025

Riverside USD 114 is seeking bids for the following Erate eligible products. These items may be bid separately or as a whole. The bid(s) will be awarded as Erate funded dependent. Bids must be submitted by January 31st, 2024 to 114erate@usd114.org. Vendor must agree to SLD (SPI) invoicing. Vendor is aware of and agrees to follow SLD guidelines on Lowest Comparable Price. Points will be added for interoperability, vendor experience with the district, and product reliability ratings.

Failure to comply with any of the items above may be grounds for disqualification. Riverside USD 114 reserves the right to accept or reject all bids. Bids will be evaluated by rubric for Erate purposes.

The current network has 1 GB access to the internet, supporting approximately 750 devices on the network. The devices on the network are multiple platforms of OS. The current environment utilizes primarily Juniper EX 2200 and 2300 switches and Aruba access points in the 305 series with a 7205 controller to build the network.

The following equipment is being sought for the district to upgrade the internal network:

1 fiber switch, Juniper EX4400 or equivalent - 10GB ethernet switch with 2x 100 GBE uplink ports

3 48 port POE switches, Juniper EX2300 or equivalent 48-port 10 100 1000BASE-T 4 PoE+, 4 x 1 10GbE SFP fiber ports

1 Juniper Networks EX Series EX2300-48T or equivalent - switch - 48 ports - 48-port 10 100 1000BASE-T 4 x 1 10GbE SFP fiber ports

Switches will not be stacked

8 Juniper or compatible SRX-SFP - 10GE-LRM SFP+ TAA Compliant Transceivers

14 Juniper or compatible SRX-SFP - 10GE-SR SFP+ TAA Compliant Transceivers

4 Juniper or compatible SRX-SFP-10GE-LR SFP+ TAA Compliant Transceivers

4 10GBase direct attach cables - TAA Compliant - 10 ft
