The IEP team must provide supplementary services, such as resource room or itinerant instruction, to be provided in conjunction with regular class placement, as applicable.

In cases where placement is made in a separate day school program or residential school program, the district may abide by the school term of the facility in which the child is placed based on the individual needs of the child.

- Placements; 300.116; ARSD 24:05:28:03

Each school district shall establish and implement procedures which ensure that the following factors are addressed in determining placements:

- (1) Each child's educational placement must be individually determined at least annually and must be based on the child's individual education program;
- (2) Provisions are made for appropriate classroom or alternative settings necessary to implement a child's IEP;
- (3) Unless a child's IEP requires some other arrangement, the child shall be educated in the school which that child would normally attend if not disabled. Other placements shall be as close as possible to the child's home;
- (4) Placement in the least restrictive environment will not produce a harmful effect on the child or reduce the quality of services which that child needs; and
- (5) A child with a disability is not removed from education in age-appropriate regular classrooms solely because of needed modification in the general education curriculum.

- Non-academic settings, 300.117; ARSD 24:05:28:06

In providing or arranging for the provision of nonacademic and extracurricular services and activities, including meals, recess periods, and the services and activities listed in this chapter, Rosholt school district shall develop and implement procedures which ensure that each child in need of special education or special education and related services participate with children without disabilities in those services and activities to the maximum extent appropriate to the needs of that child. The district shall ensure that each child with a disability has the supplementary aids and services determined by the child's IEP to be appropriate and necessary for the child to participate in nonacademic settings.

- Children in public or private institutions; 300.118; ARSD 24:05:28:07

Rosholt school district ensures that children placed in public or private institutions or other care facilities are educated with children who are not disabled to the maximum extent appropriate.

- Monitors placements, 300.120; ARSD 24:05:28:12

Rosholt school district's IEP team ensures that children in need of special education, or special education with related services, are provided those services in the least restrictive environment per the individual student's needs identified in the IEP.

If the department finds evidence that a district makes placements that are inconsistent with the requirements for the least restrictive environment in Part B of the Individuals with Disabilities Act, the department shall review the district's justification for its actions and shall assist in planning and implementing any necessary corrective action.

District Narrative: (Review cited regulation to describe local implementation.)

The Rosholt school district ensures that all children with disabilities and their parents are afforded the required procedural safeguards of 34 CFR 300.500 through 300.356 as outlined in the *South Dakota Parental Rights and Procedural Safeguards* document.

The district will provide a copy of the procedural safeguards document to the parents of an eligible child with a disability at least one time each year, in addition to the following:

- Upon initial referral or parent request for an evaluation;
- Upon request by the parent;
- In accordance with discipline procedures outline in the procedural safeguards document;
- Upon receipt of the first state complaint or first due process complaint in a given school year.

The district posts a copy of the procedural safeguards document on its website in both English and Spanish to afford access to the public.

- **Opportunity to examine records; parent participation in meetings; 300.501(a)(b)(c); ARSD 24:05:30:02**

The parents of a child in need of special education or special education and related services shall be afforded, in accordance with the procedures in Chapter 24:05:29, an opportunity to inspect and review all education records concerning the identification, evaluation, and educational placement of the child and provisions of a free appropriate public education to the child.

- **Independent educational evaluations; 300.502; ARSD 24:05:30:03**

If the parent disagrees with the evaluation obtained by the district subject to the conditions in this section, they have the right to an independent educational evaluation at public expense.

Each district shall provide to parents, upon request for an independent educational evaluation, information about where an independent educational evaluation may be obtained, and the district criteria applicable for independent educational evaluations specified in this section.

If a parent does request an IEE, while the district may ask for the parent's reason why he or she objects to the public evaluation, the parents are not required to provide reasoning and the IEE may not be unreasonably delayed either providing the IEE at public expense or filing a due process complaint to request a due process hearing to defend the public evaluation.

If a parent requests an IEE, the district must, without unnecessary delay, will file a due process complaint to request a hearing under this chapter to show that it's evaluation is appropriate, or ensure that an IEE is provided at public expense unless the district demonstrates in a hearing that the evaluation obtained by the parent did not meet the requirements.

If the district files a due process complaint to request a hearing under this chapter and the final decision is that the evaluation is appropriate, the parent still has the right to an IEE, but NOT at public expense.

The parent is only entitled to one IEE at public expense per evaluation with which the parent disagrees.

If a parent obtains an IEE, regardless of at public or private expense, the results of the evaluation, as long as it meets district criteria, must be considered by the district in any decision made with respect to the provision of a free appropriate public education to the child and may be presented by any party as evidence at a hearing under this chapter regarding that child.

If a hearing officer requests an IEE as part of the hearing, the cost of the evaluation must be at public expense.

If an independent evaluation is made at public expense, the criteria under which the evaluation is obtained, including the location of the evaluation and the qualifications of the examiner, must be the same as the criteria which the district uses when it initiates an evaluation to the extent those criteria are consistent with the parent's right to an IEE. Each district shall provide to parents, on request, information about where an independent educational evaluation may be obtained.

For the purposes of this section, the term, IEE means an evaluation conducted by a qualified examiner who is not employed by the district responsible for the education of the child in question. For purposes of this section, the term , public expense, means that the district either pays for the full cost of the evaluation or ensures that the evaluation is otherwise provided at no cost to the parent consistent with 24:05:14:01 to 24:05:14:01:05, inclusive.

Except for the criteria described in this section, a district may not impose conditions or timelines related to obtaining an IEE at public expense.

- Prior written notice; content of notice; 300.503; ARSD 24:05:30:04

The Rosholt school district ensures that parents are given notice five days before the district proposes or refuses to initiate or change the identification, evaluation, or educational placement of the child of the provision of a free appropriate education to the child. The five-day notice requirement may be waived by the parent. The date is identified specifically on the PPWN.

A parent of a child with a disability may elect to receive notices required by this chapter by an electronic mail communication, if the district makes that option available.

- Availability of mediation; 300.506; ARSD 24:05:30:09

Rosholt school district ensures that procedures are established and implemented to allow parties to dispute any matter under this article, including matters that arise before the filing of a due process complaint, to resolve disputes through a mediation process. Procedures for mediation are as follows:

- (1) The district shall ensure that mediation is viewed as voluntary and freely agreed to by both parties and is in no way used to deny or delay an aggrieved party's right to a hearing on a parent's due process complaint, or to deny any other rights afforded under this article; and
- (2) The mediation conference is an intervening, informal process conducted in a non-adversarial atmosphere that is scheduled in a timely manner and held in a location that is convenient to the parties in the dispute.

The state shall bear the cost of the mediation process, including the costs of meetings described in 24:05:30:09.02

- Filing of due process complaints; 300.507; 300.508; 300.509; ARSD 24:05:30:07.01

A due process complaint may be filed by the school district or parent on any matters relating to the identification, evaluation or educational placement of a child with a disability, or the provision of FAPE to the child.

- Resolution process; 300.510; ARSD 24:05:30:08.09-.12

Participants:

Within 15 days of receiving notice of the parent's due process complaint, and before the initiation of a due process hearing under this chapter, the district shall convene a meeting with the parent and the relevant member or members of the IEP team who have specific knowledge of the facts identified in the due process complaint. The meeting:

- (1) Shall include a representative of the district who has decision-making authority on behalf of the district; and
- (2) May not include an attorney of the district unless the parent is accompanied by an attorney.

The parent and district shall determine the relevant members of the IEP team to attend the meeting.

Purpose:

The purpose of the resolution meeting is for the parent of the child to discuss the due process complaint, and the facts that form the basis of the due process complaint, so that the district has the opportunity to resolve the dispute that is the basis for the due process complaint.

Waive or Mediate:

The resolution meeting need not be held if:

- (1) The parent and the district agree in writing to waive the meeting; or
- (2) The parent and the district agree to use the mediation process described in this chapter.

General:

If within 30 days of receipt of the due process complaint, the district has not resolved the due process complaint to the satisfaction of the parent, the due process hearing may occur.

Except as provided in 24:05:30:08:14, the timeline for issuing a final decision in a due process hearing begins at the expiration of the 30-day period.

Except where the parties have jointly agreed to waive the resolution process or to use mediation, notwithstanding the above two paragraphs, the failure of the parent filing a due process complaint to participate in the resolution meeting delays the timelines for the resolution process and due process hearing until the meeting is held.

- Impartial due process hearing; 300.511; ARSD 24:05:30:09.04

If a due process hearing is received under this chapter, chapter 24:05:26, or chapter 24:05:26.01, the parents or the district involved in the dispute shall have an opportunity for an impartial due process hearing, consistent with the procedures in this article.

The department is responsible for ensuring that a due process hearing is held.

- Hearing rights; 300.512; ARSD 24:05:30:12

Any party to a hearing, under this chapter or chapter 24:05:26 and 24:05:06.01, has the right to:

- (1) Be accompanied and advised by counsel and by individuals with special knowledge or training concerning the problems of children with disabilities, except that neither party has the right to be represented by a Non attorney at a hearing;
- (2) Present evidence and confront, cross-examine, and compel the attendance of witnesses;
- (3) Prohibit the introduction of any evidence at the hearing that has not been disclosed to that party at least five business days before the hearing;
- (4) Obtain a written or, at the option of the parents, electronic verbatim record of the hearing; and
- (5) Obtain written or, at the option of the parents, electronic findings of fact and decisions. The public agency shall transmit those findings and decisions, after deleting any personally identifiable information, to the state advisory council and shall make those findings and decisions available to the public.

Parents involved in hearings must be given the right to have the child who is the subject of the hearing present and open the hearing to the public. The record of the hearing and the findings of fact and decisions must be provided at no cost to the parents.

- **Hearing decisions; 300.513; 300.514; 300.515; 300.516; 300.517; ARSD 24:05:30:11**

Appeal of hearing decision- Civil Action:

Any aggrieved party by the decision of the hearing officer under this chapter or chapters 24:05:26 and 24:05:26.01 may bring a civil action with respect to a due process complaint notice requesting a due process hearing under the Individuals with Disabilities Education Act, 20 U.S.C. 1415(l)(2). A civil action may be filed in either state or federal court without regard to the amount in controversy. The party bringing the action has 90 days from the date of a hearing officer's decision to file a civil action. In any action brought under this section, this court:

- (1) Shall review the records of the administrative proceedings;
- (2) Shall hear additional evidence at the request of a party; and
- (3) Basing its decision on the preponderance of the evidence, shall grant the relief that the court determines to be appropriate.

Nothing in Part B of the IDEA restricts or limits the rights, procedures, and remedies available under the Constitution, the Americans with Disabilities Act of 1990 as amended to July 1, 2013, Title V of the Rehabilitation Act of 1973 as amended to July 1, 2013, or other federal laws protecting the right of children with disabilities. However, before the filing of a civil action under these laws, seeking relief that is also available under section 615 of IDEA, the procedures under this chapter for filing a due process complaint must be exhausted to the same extent as would be required had the action been brought under section 615 of IDEA.

- **Status of child during due process proceedings; 300.518; ARSD 24:05:30:14**

Except as provided in chapters 24:05:26 and 24:05:26.01, during the pendency of any administrative hearing or judicial proceeding regarding a due process complaint notice requesting a due process hearing pursuant to this chapter, the child involved must remain in the present educational placement unless the state or school district and the parents agreed otherwise. If the complaint involves an application for initial admission to public school, the child, with the consent of the parents, must be placed in the public-school program until the completion of all the proceedings.

If the complaint involves an application for initial services under this article from a child who is transitioning from Part C of the IDEA to Part B and is no longer eligible for Part C services because the child has turned three, the district is not required to provide the Part C services that the child has been receiving. If the child is found eligible for special education and related services under Part B and the parent consents to the initial provision of special education and related services, then the district must provide those special education and related services that are not in dispute between the parent and the district.

If the decision of a hearing officer in a due process hearing agrees with the child's parents that a change of placement is appropriate, that placement must be treated as an agreement between the state and the parents for purposes of pendency.

- **Surrogate parents; children who are wards of the state; homeless youth; 300.519; ARSD 24:05:30:15**

Each school district shall establish procedures for the assignment of a surrogate parent to ensure that the rights of a child are protected if no parent, as defined in 24:05:13:04, can be identified and the district, after reasonable effort, cannot locate a parent or if the child is a ward of the state or the child is an unaccompanied homeless youth as defined in section 725(6) of the

McKinney-Vento Homeless Assistance Act, as amended to January 1, 2009. A district's method for determining whether a child needs a surrogate parent must include the following:

- (1) The identification of staff members at the district or building level responsible for referring students in need of a surrogate parent;
- (2) The provision of in-service training on the criteria in this section for determining whether a child needs a surrogate parent; and
- (3) The establishment of a referral system within the district for the appointment of a surrogate parent.

If a child is a ward of the state, the surrogate parent alternatively may be appointed by the judge overseeing the child's case, if the surrogate meets the requirements of this section.

The district superintendent or designee shall appoint surrogate parents.

The district shall ensure that a person selected as a surrogate has no personal or professional interest that conflicts with the interest of the child the surrogate represents and has knowledge and skills that ensure adequate representation of the child. The district is responsible for the training and certification of surrogate parents and shall maintain a list of persons who may serve as surrogate parents.

A person assigned as a surrogate may not be an employee of the department, district, or any other agency that is involved in the education of care of the child.

If a child is an unaccompanied homeless youth, appropriate staff of emergency shelters, transitional shelters, independent living programs, and street outreach programs may be appointed as temporary surrogate parents, without regard to the nonemployee provision above, until a surrogate parent can be appointed who meets all the requirements of this section.

A person who otherwise qualifies to be a surrogate under the provisions of this section is not an employee of the agency solely because the person is paid by the agency to serve as a surrogate parent.

The surrogate parent may represent the student in all matters relating to the identification, evaluation, educational placement, and provision of FAPE to the students.

The department shall make reasonable efforts to ensure the assignment of a surrogate parent not more than 30 days after a district determines that the child needs a surrogate parent.

- **Transfer of rights at age of majority; 300.520; ARSD 24:05:30:16.01**

Consistent with state law, when a child with a disability reaches the age of majority that applies to all children, except for an eligible child who has been determined to be incompetent, the following shall occur:

- (1) The school district shall provide any notice required by this article to both the individual and the parents;
- (2) All other rights accorded to parents under this article transfer to the child; and
- (3) All rights accorded to parents under this article transfer to children who are incarcerated in an adult or juvenile, state, or local correctional institution.

If a state transfers right under this section, the school district shall notify the individual and the parents of the transfer of rights. If, consistent with state law, an eligible child is determined not to have the ability to provide informed consent with respect to the educational program of the child, the school district shall appoint the parent or, if the parent is not available, another appropriate individual to represent the educational interests of the child throughout the child's eligibility under this article.

- **Discipline procedures and manifestation determination; 300.530; ARSD 24:05:26:09.03**

Within ten school days of any decision to change the placement of a student with a disability because of a violation of a code of student conduct, the school district, the parent, and relevant members of the student's IEP team, as determined by the parent and the district, shall review all relevant information in the student's file, including the student's IEP, any teacher observations, and any relevant information provided by the parents to determine;

- (1) Whether the conduct in question was caused by, or had a direct and substantial relationship to, the student's disability; or
- (2) Whether the conduct in question was the direct result of the school district's failure to implement the IEP.

The conduct must be determined to be a manifestation of the student's disability if the district, the parent, and relevant members of the student's IEP team determine that a condition in either subdivision (1) or (2) of this section was met.

If the district, the parent, and relevant members of the student's IEP team determine that the condition described in subdivision (2) of this section was met, the district shall take immediate steps to remedy those deficiencies.

- Determination of setting; 300.531; ARSD 24:05:26:09.2

The IEP team shall determine the interim alternative educational setting in which a student is placed under 24:05:26:08.01, 24:05:26:02.01, and 24:05:26:09.05.

- Right of Appeal of the Determination of Setting; 300.532; ARSD 24:05:26:09.05

Not a Manifestation of Disability:

For disciplinary changes in placement that would exceed ten consecutive school days, if the behavior that gave rise to the violation of the school code is determined not to be a manifestation of the student's disability pursuant to this chapter, school personnel may apply the relevant disciplinary procedures to students with disabilities in the same manner and for the same duration as the procedures would be applied to students without disabilities, except as provided in this section.

A student with a disability who is removed from the student's current placement pursuant to this section or 24:05:26:08.01 must:

- (1) Continue to receive educational services, as provided in this article, so as to enable the student to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the student's IEP; and
- (2) Receive, as appropriate, a functional behavioral assessment, and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur.

- Placement during appeals; 300.533; ARSD 24:05:26:09.06

Appeal:

The parent of a student with a disability who disagrees with any decision regarding placement under this chapter or with the manifestation determination, or a school district that believes that maintaining the current placement of the student is substantially likely to result in injury to the student or others, may appeal the decision by requesting a hearing. The hearing is requested by filing a complaint pursuant to this article.

- Protections for children not determined eligible for special education and related services; 300.534; ARSD 24:05:26:14

A student who has not been determined to be eligible for special education and related services under this article and who has engaged in behavior that violated any rule or code of conduct of the school district, including any behavior described in this chapter, may assert any of the protections provided for in this article if the school district has knowledge that the student was a student with a disability before the behavior that precipitated the disciplinary action occurred. A school district is deemed to have knowledge that a student is a student with a disability if:

- (1) The parent of the student has expressed concern in writing to supervisory or administrative personnel of the appropriate educational agency, or a teacher of the student, that the student is in need of special education and related services;
- (2) The parent of the student has requested an evaluation of the student pursuant to this article; or
- (3) The teacher of the student, or other personnel of the district or other public agency has expressed specific concerns about a pattern of behavior demonstrated by the student directly to the director of special education of the district or to other supervisory personnel of the district.

A district is not deemed to have knowledge that the student is a student with a disability under this section, if the parent of the student has not allowed an evaluation of the student pursuant to this article, or has refused services under this article, or the district conducted an evaluation consistent with this article and determined that the student was not a student with a disability.

If the district does not have knowledge that a student is a student with a disability before taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as measures applied to students without disabilities who engaged in comparable behaviors consistent with this chapter.

If a request is made for an evaluation of a student during the time period in which the student is subjected to disciplinary measures under this chapter, the evaluation must be conducted in an expedited manner. Until the evaluation is completed, the student shall remain in the educational placement determined by school authorities, which can include suspension or expulsion without educational services. If the student is determined to be a student with a disability taking into consideration information from the evaluation conducted by the district and information provided by the parents, the district shall provide special education and related services in accordance with the provisions of this article including the discipline procedures and free appropriate public education requirements.

- Referral to action by law enforcement and judicial authorities; 300.535; ARSD 24:05:26:15

Nothing in Part B of the Individuals with Disabilities Education Act prohibits a school district or other public agency from reporting a crime committed by a student with a disability to appropriate authorities or to prevent state law enforcement and judicial authorities from exercising their responsibilities regarding the application of federal and state law to crimes committed by a student with a disability.

- Change of placement due to disciplinary removals; 300.536; ARSD 24:05:26:02.01

For purposes of removal of a student with a disability from the student's current educational placement under this chapter, a change of placement occurs if:

(1) Removal is for more than ten consecutive school days; or

(2) The student is subjected to a series of removals that constitute a pattern because:

(a) They cumulate to more than ten school days in a school year;

(b) Of factors such as the length of each removal, the total amount of time the student is removed, and the proximity of the removals to one another; and

(c) The student's behavior is substantially similar to the student's behavior in previous incidents that resulted in the series of removals.

The school will determine on a case-by-case basis whether a pattern of removals constitutes a change of placement. This determination is subject to review through due process and judicial proceedings.

SECTION VII: Evaluation 34 C.F.R. §300.122; ARSD 24:05:25

The district/cooperative and all member schools/districts will ensure that all children with disabilities are evaluated in accordance with 34 C.F.R. §§300.300 through 300.311. Specific references must include:

- Parental consent (for initial evaluation, services, and re-evaluations; 300.300; ARSD 24:05:25:02.01, ARSD 24:05:25:06.01

District Narrative: (Review cited regulation to describe local implementation.)

The Rosholt school district ensures that all children with disabilities are evaluated in accordance with the following regulatory provisions:

- Parental consent (for initial evaluation, services, and re-evaluations; 300.300; ARSD 24:05:25:02.01, ARSD 24:05:25:06.01 ARSD.

Any school district proposing to conduct an initial evaluation to determine whether a child qualifies as a child with a disability shall, after providing notice consistent with chapter 24:05:30; obtain informed consent from the parent of the child before conducting the evaluation.

Parental consent for initial evaluation may not be construed as consent for initial provision of special education and related services.

The Rosholt school district shall make reasonable efforts to obtain the informed consent from the parent for an initial evaluation to determine whether the child is a child with a disability.

To meet the reasonable efforts requirement in this section, the district shall document its attempts to obtain parental consent using the following procedures (found in 24:05:25:17).

The IEP team meeting may be conducted without a parent in attendance if the district is unable to convince the parents that they should attend. The district must have a written documentation of its attempts to arrange a mutually agreed upon time and place, such as the following:

- (1) Detailed records and dates of telephone calls made or attempted to parents and the results of those calls;
 - (2) Detailed copies of dated correspondence sent to the parents and any responses received; and
 - (3) Detailed records and dates of visits made to the parent's home or place of employment and the results of those visits
- Initial evaluations; (Preplacement evaluations, ARSD 24:05:25:03)

Before any action is taken concerning the initial placement of a child with disabilities in a special education program, a full and individual evaluation of the child's educational needs must be conducted in accordance with the requirements of this chapter. **Initial evaluations must be completed within 25 school days after receipt by the district of signed parent consent to evaluate unless other timelines are agreed to by the school administration and the parents.**

Written evaluation reports, determination of eligibility, and conducting an IEP team meeting must be completed within 30 days from the end of the 25-school day evaluation timeline. If another timeline for completing the evaluation process is agreed to by the parent and school administration, the written evaluation reports, determination of eligibility, and conducting an IEP team meeting must be completed within 30 days from the end of agreed upon evaluation timeline.

Consistent with the consent requirements in this section, either a parent of a child or a school district may initiate a request for an initial evaluation to determine whether the child is a child with a disability.

- Screening for instructional purposes; 300.302; ARSD 24:05:25:03.03

The screening of a student by a teacher or specialist to determine appropriate instructional strategies for curriculum implementation is not considered to be an evaluation for eligibility for special education and related services.

- Re-evaluations; 300.303; ARSD 24:05:25:06

Rosholt school district shall ensure that a reevaluation of each child with a disability is conducted in accordance with this chapter if the school district determines that the educational or related service needs, including improved academic achievement and functional performance, of the child warrant a reevaluation or if the child's parents or teacher requests a reevaluation.

A reevaluation conducted under this section may occur not more than once a year, unless the parent and district agree otherwise, and must occur at least once every three years, unless the parent and the district agree that a reevaluation is unnecessary.

Reevaluations must be completed within 25 school days after receipt by the district of signed consent to reevaluate unless other time limits are agreed to by the school administration and the parents consistent with 24:05:25:03.

Each school district shall follow the procedures under 24:05:25:04.02 when reevaluating a student for additional purposes of:

- (1) Determining whether the child continues to have a disability and determining the educational needs of the child,
- (2) Determining the present levels of academic achievement and related developmental needs of the child;

- (3) Determining whether the child continues to need special education and related services; and
- (4) Determining whether any additions or modifications to the special education and related services are needed to enable the child to meet the measurable annual goals set out in the IEP and to participate, as appropriate, in the general education curriculum.

If no additional data are needed to determine continuing eligibility and the child's educational needs, the district shall notify the parents of that determination and reasons for it and of the right of the parent to request an assessment, for purposes of determining the child's educational needs under this article, and to determine continuing eligibility. The school district is not required to conduct an assessment unless requested to do so by the child's parents. However, a school district shall follow the procedures in this chapter before determining that the child is no longer a child with a disability. The evaluation procedures described in this chapter are not required before the termination of a child's eligibility under this article due to graduation from secondary school with a regular high school diploma or exceeding the age eligibility for FAPE.

- **Evaluation procedures; 300.304; 300.305; ARSD 24:05:25:04**

Evaluation procedures must include a minimum of the following:

- (1) Assessment and other evaluation materials are provided and administered in the child's native language or by another mode of communication and in the form most likely to yield accurate information on what the child knows and can do academically, developmentally, and functionally, unless it is clearly not feasible to so provide or administer. In addition, assessments and other evaluation materials:
 - a. Are used for the purposes for which the assessments or measures are valid and reliable; and
 - b. Are administered by trained and knowledgeable personnel in conformance with the instructions provided by their producer;
- (2) Assessments and other evaluation materials include those tailored to assess specific areas of educational need and not merely those which are designed to provide a single general intelligence quotient;
- (3) Assessments are selected and administered so as best to ensure that if an assessment is administered to a child with impaired sensory, manual, or speaking skills, the assessment accurately reflects the child's aptitude or achievement level or whatever other factors the assessment purports to measure, rather than the child's impaired sensory, manual, or speaking skills except where those skills are the factors which the assessment purports to measure;
- (4) No single measure or assessment is used as the sole criterion for determining eligibility or an appropriate educational program for a child;
- (5) A variety of assessment tools and strategies are used to gather relevant functional, developmental, and academic information about the child, including information provided by the parents, that may assist in determining:
 - a. To be involved in and progress in the general education curriculum; or
 - b. For a preschool child, to participate in appropriate activities
- (6) Technically sound instruments, assessment tools, and strategies are used that:
 - a. May assess the relative contribution of cognitive and behavioral factors, in addition to physical or developmental factors; and
 - b. Provide relevant information that directly assists persons in determining the educational needs of the child;
- (7) The child is assessed in all areas related to the suspected disability, including, if appropriate, health, vision, hearing, social and emotional status, general intelligence, academic performance, communicative status, and motor abilities, and
- (8) The evaluation is sufficiently comprehensive to identify all of the child's special education and related service needs, whether commonly linked to the disability category in which the child has been classified.

Assessments of children with disabilities who transfer from one school district to another school district in the same school year are coordinated with those children's prior and subsequent schools, as necessary and as expeditiously as possible, consistent with 24:05:25:03.01, to ensure prompt completion of full evaluations.

- **Determining eligibility; 300.306; ARSD 24:05:25:04.03**

Upon completing the administration of assessments and other evaluation measures as required by this chapter, the individual education program team and other qualified individuals required by 24:05:25:04.02 shall determine whether the student is a student with a disability, and shall determine the educational needs of the child, as defined in this article. The school district shall provide a copy of the evaluation report and the documentation of determination of eligibility at no cost to the parent. A student may not be determined to be a student with a disability if the determinant factor for that decision is a lack of appropriate instruction in reading, including the essential components of reading instruction as defined in ESSA, or lack of

appropriate instruction in math or limited English proficiency and if the student does not otherwise meet the eligibility criteria under chapter 24:05:24.01.

- Specific learning disabilities; 300.307 through 300.311; ARSD 24:05:25:07, ARSD 24:05:25:08, ARSD 24:05:25:11, ARSD 24:05:25:12

Additional procedures for evaluating specific learning disabilities:

In order for a school district to certify a child as learning disabled for purposes of the federal child count, requirements in 24:05:24.01:19 and 24:05:25:08 to 24:05:25:13, inclusive, must be met and documented in a child's record.

Additional group members for specific learning disabilities:

The determination of whether a child suspected of having a specific learning disability is a child with a disability shall be made by the child's parents and a team of qualified professionals, which shall include:

- (1) The child's regular teacher;
- (2) If the child does not have a regular teacher, a regular classroom teacher qualified to teach a child of that age;
- (3) If the child is less than school age, an individual certified by the department to teach a child of that age; and
- (4) At least one person qualified to conduct individual diagnostic examinations of children, such as a school psychologist, speech-language pathologist, remedial reading teacher, or special education teacher.

Observation for specific learning disabilities:

The school district shall ensure that the child is observed in the child's learning environment, including the regular classroom setting, to document the child's academic performance and behavior in the areas of difficulty.

The group described in this section, in determining whether a child has a specific learning disability, shall:

- (1) Use information from an observation in routine classroom instruction and monitoring of the child's performance that was done before the child was referred for an evaluation, as in a response to intervention model; or
- (2) Have at least one member of the group conduct an observation of the child's academic performance in the regular classroom after the child has been referred for an evaluation and parental consent, consistent with this chapter, is obtained, as in a discrepancy model.

If a child is less than school age or out of school, a group member must observe the child in an environment appropriate for a child of that age.

Documentation of eligibility for specific learning disabilities:

For a child suspected of having a specific learning disability, the documentation of the determination of eligibility shall contain a statement of:

- (1) Whether the child has a specific learning disability;
- (2) The basis for making the determination, including an assurance that the determination has been made in accordance with this section;
- (3) The relevant behavior, if any, noted during the observation of the child and the relationship of that behavior to the child's academic functioning;
- (4) The educationally relevant medical findings, if any;
- (5) Whether:
 - a. The child does not achieve adequately for the child's age or does not meet state-approved grade-level standards; and
 - b. The child does not make sufficient progress to meet age or state-approved grade-level standards; or the child exhibits a pattern of strengths and weaknesses in performance, achievement, or both, relative to age, state-approved grade level standards or intellectual development;
- (6) The determination of the group concerning the effects of a visual, hearing, or motor disability; cognitive disability; emotional disturbance; cultural factors; environmental or economic disadvantage; or limited English proficiency on the child's achievement level;
- (7) If the child has participated in a process that assesses the child's response to scientific, research-based intervention:

- a. The instructional strategies used and the student-centered data collected; and
 - b. The documentation that the child's parents were notified about:
 - i. The state's policies regarding the amount and nature of student performance data that would be collected and the general education services that would be provided;
 - ii. Strategies for increasing the child's rate of learning; and
 - iii. The parents' right to request an evaluation;
- (8) If using the discrepancy model, the group finds that the child has a severe discrepancy of 1.5 standard deviations between achievement and intellectual ability in one or more of the eligibility areas, the group shall consider regression to the mean in determining the discrepancy; and
- (9) If using the response to intervention model for eligibility determination, the group shall demonstrate that the child's performance is below the mean relative to age or state approved grade level standards.

The district may not charge a fee to search for or retrieve information under this chapter.

- Amendments to records at parent's request; 300.618; ARSD 24:05:29:09

For all eligible students with disabilities enrolled in private schools by their parents, a service plan will be developed in accordance with 300.132, and records maintained documenting the number of students evaluated and served in these settings.

- Definition of parentally placed private school children; 300.130; ARSD 24:05:32:01

Responsibility of department:

The department is responsible for ensuring the participation of eligible parentally-placed private school children in the program assisted or carried out under this article consistent with their number and location by providing them with special education and related services in accordance with this chapter including direct services, unless the U.S. Secretary of Education has arranged for services under the by-pass procedures in Part B of IDEA. The department shall ensure that a service plan is developed and implemented for each private school child with a disability who has been designated by the district in which a private school is located to receive special education and related services under this chapter. For purposes of this chapter, the term, parentally-placed private school children with disabilities, means children with disabilities enrolled by their parents in private, including religious, schools or facilities that meet the state definition of elementary school or secondary school, other than children with disabilities covered under chapter 24:05:31.

- Child find for parentally-placed private school children with disabilities; 300.131; ARSD 24:05:32:01.01

Each school district shall establish a child find process to locate, identify, and evaluate all private school children with disabilities, including religious elementary and secondary school children and children receiving alternative instruction under 13-27-3 in schools located in the school district served by the district. The activities undertaken for children with disabilities must be similar to activities undertaken for children with disabilities in public schools.

The child find process shall be designed to ensure:

- (1) The equitable participation of parentally placed private school children; and
- (2) An accurate count of those children.

The child find process shall be completed in a time period comparable to that for students attending public schools in the district consistent with this article.

Each school district in which private, including religious, elementary schools and secondary schools are located shall, in carrying out the child find requirements in this section, include parentally placed private school children who reside in a state other than the state in which the private schools that they attended are located.

Each school district shall maintain in its records, and provide to the department, the following information related to parentally- placed private school children covered under this chapter: the number of children evaluated; the number of children determined to be children with disabilities; and the number of children served.

- **Provision of services for parentally placed private school children with disabilities; 300.132; ARSD 24:05:32:03.01**

Service Plan:

If a child with a disability is enrolled in a religious or other private school, by the child's parent, and will receive special education or related services from the district, the district shall:

- (1) Initiate and conduct meetings to develop, review, and revise a service plan for the child, in accordance with 24:05:32:03.02; and
 - (2) Ensure that a representative of the religious or other private school attends each meeting. If the representative cannot attend, the district shall use other methods to ensure participation by the private school, including individuals or conference telephone calls.
- **Expenditures for parentally-placed private school children with disabilities; 300.133; ARSD 24:05:32:01:02**

Each school district must spend the following amounts on providing special education and related services including direct services to parentally-placed private school children with disabilities:

- (1) For children 3-21, inclusive, an amount that is the same proportion of the school district's total subgrant under Part B of IDEA as the number of private school children with disabilities aged 3-21, inclusive, who are enrolled by their parents in private, including religious, elementary schools and secondary schools located in the school district served by the district is to the total number of children with disabilities in its jurisdiction aged 3-21, inclusive: and
- (2) For children 3-5, inclusive, an amount that is the same proportion of the school district's total subgrant under Section 619, Preschool, of the IDEA as the number of private school children with disabilities aged 3-5, inclusive, who are enrolled by their parents in private, including religious, elementary schools located in the school district served by the district is to the total number of children with disabilities in its jurisdiction aged 3-5, inclusive.

If a district has not expended for equitable services all of the funds described in this section by the end of the fiscal year for which Congress appropriated funds, the district shall obligate the remaining funds for special education and related services, including direct services, to parentally-placed private school children with disabilities during a carry-over period of one additional year.

In calculating the proportionate share, the district, after timely and meaningful consultation with representatives of private schools, shall conduct a thorough and complete child find process to determine the number of parentally-placed children with disabilities attending private schools located in the district.

State and local funds may supplement and in no case supplant the proportionate amount of federal funds required to be expended for parentally-placed private school children with disabilities under this chapter.

Private school children with disabilities may receive a different amount of services than children with disabilities in public schools. No private school child with a disability is entitled to any service or to any amount of service the child would receive if enrolled in a public school. Each private school child with a disability who has been designated to receive services under this chapter, must have a services plan that describes the specific special education and related services that the district will provide to the child in light of the services that the district has determined, through the process described in this chapter, it will make available to private school children with disabilities. - (1) From the child's school or the child's home to a site other than the private school; and
- (2) From the service site to the private school, or to the child's home, depending on the timing of the services.

- (1) The needs of a private school; or
- (2) The general needs of the students enrolled in the private school.

- Use of personnel for the provision of services to parentally-placed private school students with disabilities; 300.142; ARSD 24:05:32:13

A school district may use IDEA Section 619 Preschool and Part B funds to make public personnel available in other than public facilities to the extent necessary to provide services designed for students enrolled in a private school if those services are not normally provided by the private school.

- Prohibition on separate classes; 300.143; ARSD 24:05:32:11

The school district in which the child under care and custody of the state resides is responsible for the identification, evaluation, and placement of the child pursuant to the rules in this article governing children in need of special education or special education and related services. The state is responsible for the costs of special education or special education and related services.

- Placement of children with disabilities by their parents in private schools when FAPE is an issue; 300.148; ARSD 24:05:31:01-07

Applicability:

The provisions of this chapter apply to eligible children who are or have been placed in or referred to a private school or facility by a school district as a means of providing special education or special education and related services and to eligible children placed in private schools by their parents when FAPE is at issue.

Responsibility of Department:

The department shall ensure that an eligible child who is placed in or referred to private school or facility by a school district is provided special education or special education and related services in conformance with an individual educational program which meets the requirements of this article at no cost to the parents and is provided an education which meets the standards that apply to state and local school districts, including requirements in this chapter, with the exception of requiring qualified special education teachers. The eligible child has all the rights of a child with a disability served by a school district.

If an eligible child has available a free appropriate public education and the parents choose to place the child in a private school or facility, the public agency is not required by this chapter to pay for the child's education, including special education and related services, at the private school or facility. However, the public agency must include the child in the population whose needs are addressed consistent with chapter 24:05:32.

Disagreements between a parent and a public agency regarding the availability of a program appropriate for the child and the question of financial responsibility are subject to the due process procedures.

Reimbursement for private school placement:

If the parents of an eligible child, who previously received special education and related services under the authority of a school district, enroll the child in a private preschool, elementary, or secondary school without the consent of or referral by the school district, a court of hearing officer may require the school district to reimburse the parents for the cost of that enrollment if the court or hearing officer finds that the school district has not made a free appropriate public education available to the child in a timely manner before that enrollment and that the private placement is appropriate. A parental placement may be found to be appropriate by a hearing officer or court even if it does not meet the state standards that apply to education provided by the state and districts.

Limitations on reimbursements:

The cost of reimbursement described in 24:05:31:05 may be reduced or denied if:

- (1) At the most recent IEP team meeting the parents attended before removal of the child from the public school:

- (3) Upon a judicial finding of unreasonableness with respect to actions taken by the parents.

Exceptions to limitations on reimbursement:

Notwithstanding the notice requirements in 24:05:31:06, the cost of reimbursement may not be reduced or denied for failure to provide notice if:
