Payment will be done electronically this year. Once you have completed registration an invoice will be sent to you. The invoices are generated manually and will be completed typically within a couple days of registration.

Receiving your registration early is **very important** for coaches and managers to properly prepare for the season, so **please don't delay, register today**. Identification of the number of teams in each level we need to register with our leagues is key to ensuring appropriate team sizes. The registration fee also will be refunded if you need to withdraw your student before the season begins.

Deadline for registration is **April 1**. Registrations received after April 1 will not be guaranteed team placement. If fees are not paid by April 1, players may jeopardize their ability to play. Family limit for fees is \$300, but there is no maximum when late registration fees apply.

The success of the pizza sale fundraiser (annually \$8,000 to \$10,000 profit) has been key in allowing us to offer these programs at reduced participant expense. We also are greatly appreciative of generous donations. Keep up the good work when volunteer requests and the fundraiser information are distributed.

Uniform tops are provided by the Summer Recreation Program. However, personal clothing items, such as shirts with names or caps **might** be expected for some sports. Players must provide their own pants. Check with your coach for style. Paying for these items is the responsibility of the individual. If you would like a cap, please contact your coach. Caps are available while supplies last.

Contact information for board members assigned to each age group is listed below. Please reach out to the designated contact for the fastest response in inquiries. If you are unsure of who to contact, please send an email to [ncsummerrec@gmail.com](mailto:ncsummerrec@gmail.com) and your question will be forwarded to the correct contact.

Thank you and have a good summer,
