

To Eagle Nation,

As you undoubtedly have already discovered we unfortunately have news of another incidence of planned violence in a high school setting. While we mourn the losses at Perry High School, we also reflect on our own preparations concerning the possibility of similar occurrences on Grandview's campus and are grateful for the support of our voting constituents in passing past bond issues to help reinforce safety procedures and as well as the physical makeup of our campus.

The scheduled upgrades to building entrances, security cameras, identification software in buildings, and other programs that have been implemented increase the safety awareness of students, staff, and patrons of the Grandview R-II School District.

Thank you for your support, guidance, and understanding as we make these changes, and please discuss with your families the importance of remaining diligent concerning the safety of all.

Most Sincerely

Matt Zoph  
Superintendent of Schools  
Grandview R-II School District
