Comprehensive Planning Meetings

As stated by the PA Dept of Education: "Planning for continuous improvement of leadership, teaching, and learning is critically important to ensuring that all students have access to a world-class education that prepares them for college, career, and life."

This work is completed through a process known as Comprehensive Planning. Through stakeholder communication and collaboration, we will work together to analyze the current state of teaching and learning in WASD, identify areas of growth, and develop goals the District will work on in the coming years. This input will be used to create and submit several plans to comply with PA Department of Education, state, and federal mandates.

The Waynesboro Area School District is seeking interested community stakeholders (families, students, staff, community members, and business partners) to be part of the Comprehensive Planning process.
