

Dear Principal and Teachers of Third through Fifth Grades,

The Decatur Area Audubon Society is offering an exciting opportunity to local elementary schools. Audubon Adventures student newspaper is designed for teachers and students in grades 3-5. Audubon Adventures offers top-quality nonfiction material from the environmental experts at National Audubon and is correlated to Common Core and Next Generation Science Standards.

Children learn important science concepts while also discovering that we all have a personal stake in the health of the environment and play an important role in its preservation and improvement. Audubon Adventures can be easily integrated into the existing curriculum areas of science, social studies, mathematics, language arts, and creative arts and modified for use with higher grade levels.

Those who take advantage of this FREE offer will receive classroom sets of Audubon Adventures newspapers. Teacher's Guides will be available by download from the website. The cost to Decatur Area Audubon is \$45.95 for each classroom set. There is NO COST to the school or the teachers.

"Birds, Bees and Trees" is being offered this year. Each kit contains 3 complete learning modules - "Hooray for Hummingbirds," "The Buzz About Bees," and "Plants are for Birds" — with printed student educational magazines (3 separate topics/editions), ready-to-print letter to parents, and user guides for teachers. Teachers and students can also access online informational content and group activities, printables, posters, interactive quizzes, puzzles and games, teaching standards, glossary, and more at audubonadventures.org. Printed kit serves 32 students. Online content serves unlimited students and is free.

Contact Melody Arnold at melody2a@hotmail.com or call 217-972-0587 if you have questions and to place your order. This is a limited offer, so please do not delay. Deadline to order is December 15.

Sincerely

Melody Arnold and Jim Barr
Decatur Area Audubon Education Committee Co-chairs
