OFFICE OF THE SUPERINTENDENT

Joel D. Mahaffey

~PUBLIC NOTICE~

December 12, 2023

Parents and/or Guardians,

This morning, the school administration received a report regarding a threat made by a student towards the school. The report indicated a threat that a student stated she was going to "shoot up the school. Once the school received the threat, law enforcement was immediately notified of the situation. It was quickly determined that there was no real threat to our students and staff's safety and well-being. An Aptegey voice message was then sent out to notify the community of the situation.

The student who allegedly made the threat was removed from school until further notice. School administration will continue to work with law enforcement and legal counsel until this issue is thoroughly investigated and resolved.

I want to assure the community that the Adams Central Community Schools administration takes all statements of threat seriously and will immediately turn all reports directly over to law enforcement. If anyone has more information to share regarding this issue or any other concerns affecting school safety, please contact Adams Central administration immediately by calling the school or visiting our website.

Thank you,

Joel D. Mahaffey
Superintendent of Schools
